UNIT	PAGE	TITLE	CONCEPTS
5	74	4.7 An Assessment of the Green Revolution	• Cash crops • Estates • Government policies • Plantation • Plantation management • Research and Development • Small-holders
	77	4.8 Map in Context	
	79	Summary	
	82	Plantation Agriculture	
	84	5.1 Historical Overview of Plantations	
6	86	5.2 Characteristics of Plantations and Their Changing Character	• Agribusinesses • Agrotechnology park • Government policies • High-value added • Land constraints • Market demand • Technology transfer
	88	Case Study: Oil Palm Plantations in Peninsular Malaysia	
	102	5.3 Map in Context	
	104	Summary	
	106	Market Gardening	
7	108	6.1 Market Gardening	• Agribusinesses • Agrotechnology • Current trends • Genetic engineering • Genetically modified organism • Land competition • Land degradation • Singapore's future
	113	6.2 From Traditional Market Gardening to Hi-tech Farming	
	114	Case Study: Hi-tech Farming in Singapore	
	124	Summary	
	126	Current Trends in Agriculture	
8	128	7.1 Agrotechnology	• Heavy industry • Industrialisation • Light industry • Technological change
	132	7.2 Agribusiness	
	135	7.3 Impacts of Current Trends on Agriculture	
	138	7.4 Implications for Agriculture in Singapore	
	140	Summary	
8	142	Changing Industries	• Heavy industry • Industrialisation • Light industry • Technological change
	144	8.1 Changes in the Primary Industry	
	146	8.2 Changes in the Secondary Industry	
	147	8.3 Changes in the Tertiary Industry	
	148	Summary
