

CONTENTS

LOWER NONCHORDATES

Phylum Protozoa

Chapter 1.	Phylum Protozoa	3
Chapter 2.	Amoeba	16
Chapter 3.	Entamoeba histolytica	25
Chapter 4.	Monocystis	29
Chapter 5.	Plasmodium	35
Chapter 6.	Euglena	42
Chapter 7.	Trypanosoma	47
Chapter 8.	Paramecium	51
Chapter 9.	Vorticella	65
Chapter 10.	Miscellaneous	73
	Comparative Questions	96

Phylum Porifera

Chapter 11.	Phylum Porifera	102
Chapter 12.	Sycon	107
Chapter 13.	Leucosolenia	122
Chapter 14.	Miscellaneous	126

Phylum Coelenterata

Chapter 15.	Phylum Coelenterata	136
Chapter 16.	Hydra	144
Chapter 17.	Obelia	156
Chapter 18.	Aurelia	169
	Coral reefs	181

Phylum Platyhelminthes

Chapter 19.	Phylum Platyhelminthes	187
Chapter 20.	Planaria	191
Chapter 21.	Fasciola hepatica	200
Chapter 22.	Taenia solium	217

Phylum Nematelminthes

Chapter 23.	Phylum Nematelminthes	230
Chapter 24.	Other Helminth Parasites	247

Chapter 25. Short Notes

1. Amoebiasis, 2. Amoeboid movement, 3. Apopyle,
4. Amphiblastula, 5. Amoebocytes in sponges, 6. Alter-
- nation of generations, 7. Body wall and excretory organs
- of Ascaris, 8. Binary fission, 9. Cilia structure and
- functions, 10. Contractile vacuole, 11. Cytopyge,
12. Cytostome, 13. Corals, 14. Coral reefs, 15. Cer-
- caria, 16. Cysticercus or Bladderworm, 17. Ephyra,
18. Endomixis, 19. Encystment, 20. Flame cell,
21. Gemmule, 22. Holozoic nutrition, 23. Hexacanth,
24. Hydatid cyst, 25. Intracellular digestion, 26. Loco-
- motion in Euglena, 27. Locomotory Organelles in
- Protozoa, 28. Mixotrophic nutrition, 29. Metagenesis,
30. Medusa, 31. Miracidium, 32. Nematocyst or
- Cnidoblast, 33. Nutrition in Euglena, 34. Onchosphere,
35. Ookinete, 36. Osmoregulation, 37. Parenchymula,
38. Planula, 39. Paramylum bodies, 40. Parasitism,
41. Parasitic adaptations in Ascaris, 42. Polymorphism,
43. Parasitic protozoa, 44. Pseudonavicella, 45. Reser-
- voir host, 46. Redia, 47. Syngamy, 48. Schizogony,
49. Sense organs of Aurelia, 50. Strobilation, 51. Shizont,
52. Scolex of Taenia, 53. Spicules, 54. Scyphistoma,
55. Symbiosis, 56. Sponges, 57. Tentaculocyst, 58. Tri-
- axon spicules, 59. Trypanosoma.

HIGHER NONCHORDATES**Phylum Annelida**

Chapter 1.	Phylum Annelida	
Chapter 2.	Nereis	10
Chapter 3.	Earthworm	21
Chapter 4.	Leech	30
	Miscellaneous	51

Phylum Arthropoda

Chapter 5.	Phylum Arthropoda	60
Chapter 6.	Palaemon	71
Chapter 7.	Scorpion	106
Chapter 8.	Cockroach	112
Chapter 9.	Grasshopper	119
Chapter 10.	Insecta	126
Chapter 11.	Miscellaneous	150

Phylum Mollusca

Chapter 12.	Phylum Mollusca	159
--------------------	------------------------	-----

Chapter 13.	Pila	168
Chapter 14.	Unio	191
	Phylum Echinodermata	
Chapter 15.	Phylum Echinodermata	207
Chapter 16.	Starfish	213
Chapter 17.	Short Notes	222

1. Alima larva, 2. Auricularia larva, 3. Ambulacral groove, 4. Aristotle Lantern, 5. Autotomy, 6. Antedon, 7. Axial organ, 8. Antennary gland, 9. Apis, 10. Botryoidal tissue, 11. Bed bug, 12. Book lung, 13. Bipinnaria, 14. Coelomoduct, 15. Cocoon formation in earthworm, 16. Chloragogen cells, 17. Crop, 18. Commensalism, 19. Compound Eye, 20. Ctenidium, 21. Coxal gland of Scorpion, 22. Dorsal Ciliated Organ, 23. Enteronephric Nephridia, 24. Exhalent Siphon, 25. Endosternite, 26. Eye of Pila, 27. Green gland, 28. Glochidium, 29. Grasshopper, 30. Heteronereis, 31. Hastate Plate, 32. Hepatopancreas, 33. Haemocoel, 34. Ink-sac, 35. Keber's organ, 36. Locomotion in Leech, 37. Megalopa, 38. Malpighian Tubule, 39. Mosaic vision, 40. Metamorphosis, 41. Madreporite, 42. Mushroom Gland, 43. Nauplius, 44. Osphradium, 45. Ommatidium, 46. Organs of Bojanus, 47. Otocyst of Palaemon, 48. Pallial complex of Pila, 49. Parapodium of Heteronereis, 50. Parapodium of Nereis, 51. Pectine, 52. Pearl Formation, 53. Pyloric Filter, 54. Polian Vesicle, 55. Pedicellaria, 56. Pedipalpi, 57. Pulmonary Sac, 58. Radula, 59. Statocyst, 60. Spinning Glands, 61. Silk worm, 62. Symbiosis, 63. Septal nephridia, 64. Termites, 65. Trochophore, 66. Tube Feet, 67. Typhlosole, 68. Veliger Larva, 69. Zoaea.

HEMICHORDATES

Chapter 1.	Chordate Characters	3
Chapter 2.	Hemichordata	10
Chapter 3.	Balanoglossus	13
