

THE FOUNDATION OF PSYCHOLOGY

for
Intermediate Part I

Prof. Faqih-ud-Din Haider
HEAD OF PSYCHOLOGY DEPARTMENT
Forman Christian College, Lahore

MAJEED BOOK DEPOT
URDU BAZAR LAHORE-BHOWANA BAZAR FAISALABAD

The Contents

CHAPTER ONE - INTRODUCTION TO PSYCHOLOGY

1. Definition and Nature of Psychology	01
2. The Origin of Psychology	04
3. The Schools of Psychology.....	09
4. Psychologists At Work--Functions.....	16
5. Careers in Psychology	29
6. Trends in the discipline	34
7. Chapter Brief.....	39

CHAPTER TWO - PROCEDURES OF STUDY - THE METHODS

a, Naturalistic Observation.....	44
1. Introspection	45
2. The Developmental Method	46
3. The Field Study Method.....	47
b, Observation Under Controlled Conditions	
4. The Experimental Method.....	47
5. The Clinical or Case History Procedure.....	49
6. The Survey Method.....	50
7. The Biographical Method	51
8. The Method of Statistical Control and Analysis.....	52
Chapter Brief.....	53

CHAPTER THREE - THE NERVOUS SYSTEM

1. What is Nervous System ?.....	56
2. The Central Nervous Sysytem (C N S).....	57

Brief Introduction of :	
The Spinal Cord.....	57
The Brain.....	58
The Peripheral Nervous System (P N S)	58
The Cell, Neural Activity and Myelinization.....	59
3. The Structure and Functions of the CNS.....	63
Detailed :	
a, The Brain	63
The Brain Stem	63
The Cerebellum	65
The Cerbrum : The Frontal Parietal, Temporal and Occipital Lobes.	65
The Cortex.....	66
The Hypothalamas.....	67
The Limbic System	67
b, The Spinal Cord.....	68
4. The Peripheral Nervous System - Detailed.....	70
The Somatic Nervous System.....	70
The Autonomic Nervous System.....	71
Sympathetic Functions.....	72
Parasympathetic Functions	73
5. The Endocrine System	73
The Pituitary Gland.....	74
The Thyroids.....	76
The Adrinal Glands.....	76
The Gonads.....	77
Chapter Brief	79

CHAPTER FOUR - INFORMATION AND AWARENESS

SENSATION.....	83
Stimulus Intensity and the Limen (Threshold)....	84
Sensory Adaptation.....	84
Sensory Systems.....	86
The Sense of Vision :	86
How and what we see.....	87

Functions and Anatomy of the Eye	88
Sense of Vision and the Brain.....	91
Colour Vision.....	93
The Trichromatic Theory of Colour Vision	95
The Opponent Process Theory of Colour Vision..	96
Colour Blindness	97
The Sense of Hearing :	97
The Function and the Anatomy of the Ear.....	99
Place Versus Frequency Theory of Hearing.....	100
How Do We Locate Sounds ?	101
Loss of Hearing	101
Conductive Deafness	102
The Skin Senses :	102
Pressure.....	103
Pain.....	103
The Temperature Sense - Cold and Warmth	105
The Chemical Senses :	106
The Sense of Taste	106
The Sense of Smell.....	108
The Other Senses (of Posture and Balance)	112
The Sense of Proprioception (or the Kineasthetic Sense).....	112
The Sense of Balance (The Vestibular System)	112
PERCEPTION :	114
The Laws of Perceptual Organization	115
The Factors of Perception	123
The characteristics of the Perceiver, Social Factors	
Accuracy of Perception, Integration of the	
Senses	124
The Types of Perception	128
The Perception of Motion	128
The Perception of Distance or Depth.....	130
The Perception of Form	135
The Perception of Time.....	138
Illusion and Apperception.....	140
Illusions due to Organic Defect or Natural
