|                                                                | <i>Page</i> |
|----------------------------------------------------------------|-------------|
| <i>Preface</i> .....                                           | vii         |
| <i>Acknowledgments</i> .....                                   | ix          |
| <br><i>Chapter</i>                                             |             |
| One. INTRODUCTION .....                                        | 3           |
| Demographic Parameters of the Pesticide Problem .....          | 3           |
| Biological and Medical Parameters .....                        | 3           |
| Epidemiological, Etiological and Preventative Parameters ..... | 4           |
| Alternative But Representative Perspectives .....              | 6           |
| Contributions of Governmental and Health Agencies .....        | 7           |
| The Knowledgeable Therapist Essential .....                    | 8           |
| Additional Information Available .....                         | 10          |
| Information from Manufacturers .....                           | 22          |
| Two. HOW TO USE THIS BOOK AS RAPID REFERENCE IN                |             |
| CASE OF EMERGENCY .....                                        | 34          |
| Three. PURPOSE OF BOOK, CLASSIFICATION OF PESTICIDE            |             |
| POISONS AND GENERIC COMPOUNDS .....                            | 35          |
| Basic Classification .....                                     | 35          |
| Generic and Proprietary Pesticides in                          |             |
| Confrontation with Health .....                                | 36          |
| Four. PESTICIDES AND CONTAINED TOXIC AGENTS .....              | 37          |
| Five. CHEMICAL NAME, TRADE NAMES, CHEMICAL CLASS,              |             |
| FORMULA, SYNONYMS, AND USE .....                               | 414         |
| Six. TREATMENT, LETHAL DOSE, SIGNS AND SYMPTOMS,               |             |
| AND PATHOLOGY .....                                            | 437         |
| Common Signs and Symptoms and Differential                     |             |
| Diagnosis of Pesticidal Materials .....                        | 486         |
| <br><i>References</i> .....                                    | <br>491     |
