## Chapter 1: INTRODUCTION TO PSYCHOLOGY .....

|                                                                                |    |
|--------------------------------------------------------------------------------|----|
| Prologue .....                                                                 | 1  |
| Definition .....                                                               | 1  |
| Psychology as a Science of<br>Soul .....                                       | 1  |
| Psychology as a Science of<br>Mind .....                                       | 1  |
| Psychology as a Science of<br>Consciousness .....                              | 4  |
| Psychology as a Science of<br>Behaviour .....                                  | 5  |
| Comprehensive Definition .....                                                 | 6  |
| Goal of Psychology .....                                                       | 6  |
| Changing Definition of<br>Psychology .....                                     | 7  |
| CAREERS AND<br>SPECIALIZATION IN<br>PSYCHOLOGY (Fields of<br>Psychology) ..... | 9  |
| Clinical and Counselling<br>Psychology .....                                   | 9  |
| Experimental Psychology .....                                                  | 10 |
| Developmental Psychology .....                                                 | 11 |
| Social Psychology .....                                                        | 11 |
| Community Psychology .....                                                     | 12 |
| Environmental Psychology .....                                                 | 12 |
| School and Educational<br>Psychology .....                                     | 13 |
| Industrial and Organizational<br>Psychology .....                              | 13 |
| Forensic Psychology .....                                                      | 13 |
| Sports Psychology .....                                                        | 14 |
| Personality Psychology .....                                                   | 14 |
| Health Psychology .....                                                        | 14 |
| APPLICATION OF PSYCHOLOGY<br>WITH SPECIAL REFERENCE TO<br>PAKISTAN .....       | 14 |

## Chapter 2: HISTORICAL BACKGROUND OF PSYCHOLOGY .....

|                                         |    |
|-----------------------------------------|----|
| Greek Period and Cosmologists ..        | 17 |
| Thales.....                             | 17 |
| Anaximander .....                       | 18 |
| Heraclitus.....                         | 18 |
| Parmenides .....                        | 18 |
| Pythagoras .....                        | 18 |
| Empedocles .....                        | 19 |
| Democritus.....                         | 20 |
| Hippocrates .....                       | 21 |
| Socrates .....                          | 22 |
| Plato.....                              | 22 |
| Aristotle .....                         | 24 |
| MEDIEVAL PERIOD .....                   | 26 |
| European Period .....                   | 26 |
| Plotinus.....                           | 26 |
| St. Augustine.....                      | 27 |
| Dark Ages .....                         | 28 |
| MUSLIM PERIOD .....                     | 28 |
| Ibn-Sina (Avicenna) .....               | 28 |
| Al-Kindi.....                           | 30 |
| Al-Farabi .....                         | 31 |
| Muhammad Ibn Zakariyya Al-<br>Razi..... | 32 |
| Ibn-Miskawaih .....                     | 33 |
| Al-Ghazali .....                        | 34 |
| Ibn-Bajjah.....                         | 35 |
| Ibn-Rushd .....                         | 36 |
| RENAISSANCE .....                       | 37 |
| Rene Descartes.....                     | 38 |
| Sir Frances Bacon .....                 | 39 |
| British Empiricist .....                | 40 |
| Thomas Hobbes .....                     | 40 |
| John Locke .....                        | 41 |
| David Hume .....                        | 42 |
| David Hartley .....                     | 43 |

|                                                 |    |
|-------------------------------------------------|----|
| PHYSIOLOGICAL INFLUENCES<br>ON PSYCHOLOGY ..... | 44 |
| Ernst Heinrich Weber .....                      | 44 |
| Gustav Theodor Fechner .....                    | 45 |
| Franz Joseph Gall .....                         | 45 |
| Pierre Flourens .....                           | 46 |
| Paul Broca .....                                | 46 |
| Hermann Von Helmholtz .....                     | 46 |
| PSYCHOLOGISTS OF 17TH<br>AND 18TH CENTURY ..... | 47 |
| Charles Bell .....                              | 47 |
| Francois Magendie .....                         | 48 |
| Johannes Muller .....                           | 48 |
| DARWIN'S INFLUENCE ON<br>PSYCHOLOGY .....       | 48 |
| Charles Darwin .....                            | 48 |
| Sir Francis Galton .....                        | 49 |
| MODERN PERIOD .....                             | 50 |
| Wilhelm Maximilian Wundt .....                  | 50 |
| SCHOOLS OF THOUGHT .....                        | 53 |
| STRUCTURALISM .....                             | 53 |
| Edward Bradford Titchener .....                 | 53 |
| FUNCTIONALISM .....                             | 56 |
| William James .....                             | 58 |
| Granville Stanley Hall .....                    | 60 |
| John Dewey .....                                | 60 |
| James Rowland Angell .....                      | 61 |
| James McKeen Cattell .....                      | 62 |
| Harvey A. Carr .....                            | 63 |
| Robert Sessions Woodworth .....                 | 63 |
| BEHAVIOURISM .....                              | 65 |
| John Broadus Watson .....                       | 65 |
| William McDougall .....                         | 67 |
| Edward Lee Thorndike .....                      | 68 |
| NEO BEHAVIOURISM .....                          | 69 |
| Edward Chace Tolman .....                       | 69 |
| Clark Leonard Hull .....                        | 70 |
| Burrhus Frederic Skinner .....                  | 71 |
| Albert Bandura .....                            | 72 |
| Julian Rotter .....                             | 73 |
| GESTALT SCHOOL .....                            | 74 |
| Max Wertheimer .....                            | 74 |

|                                                    |    |
|----------------------------------------------------|----|
| Kurt Koffka .....                                  | 76 |
| Wolfgang Kohler .....                              | 76 |
| Contribution as School of<br>Thought .....         | 78 |
| PSYCHOANALYSIS .....                               | 79 |
| Joseph Breuer .....                                | 80 |
| Charcot .....                                      | 80 |
| Nancy School .....                                 | 80 |
| Free Association .....                             | 80 |
| Dreams .....                                       | 81 |
| Psychoanalysis as a System of<br>Personality ..... | 81 |
| Contributions of<br>Psychoanalysis .....           | 83 |
| NEO FREUDIANS .....                                | 84 |
| Carl Jung .....                                    | 84 |
| Alfred Adler .....                                 | 85 |
| Karen Horney .....                                 | 85 |
| THE HUMANISTIC<br>PSYCHOLOGY .....                 | 86 |
| Abraham Maslow .....                               | 88 |
| Existential Psychology .....                       | 90 |
| Carl Rogers .....                                  | 90 |
| COGNITIVE PSYCHOLOGY .....                         | 92 |
| George Miller .....                                | 92 |
| Jean Piaget .....                                  | 93 |
| Ulric Neisser .....                                | 93 |
| EVOLUTIONARY PSYCHOLOGY ...                        | 94 |
| POSITIVE PSYCHOLOGY .....                          | 95 |

### **Chapter 3: RESEARCH METHODS IN PSYCHOLOGY .....97**

|                                            |     |
|--------------------------------------------|-----|
| Goals of Research .....                    | 97  |
| Methods of Study .....                     | 98  |
| Observation .....                          | 98  |
| Types of Observation .....                 | 98  |
| INTROSPECTION .....                        | 99  |
| EXTERNAL OBSERVATION .....                 | 100 |
| Systematic/Structured<br>Observation ..... | 100 |
| NATURALISTIC OBSERVATION ..                | 102 |
| Overt Observation .....                    | 103 |
| Covert Observation .....                   | 103 |

|                                      |     |                                  |            |
|--------------------------------------|-----|----------------------------------|------------|
| CORRELATIONAL RESEARCH....           | 105 | Sympathetic Division .....       | 139        |
| OBSERVATION WITH                     |     | Parasympathetic Division .....   | 140        |
| INTERVENTION .....                   | 106 | CENTRAL NERVOUS SYSTEM....       | 141        |
| FIELD STUDY METHOD.....              | 106 | BRAIN.....                       | 141        |
| Participant Observation .....        | 106 | Fore Brain .....                 | 141        |
| Non Participant Observation ....     | 107 | Mid Brain .....                  | 149        |
| INTERVIEW METHOD .....               | 108 | Hind Brain .....                 | 149        |
| Structured Interview .....           | 109 | Pons .....                       | 149        |
| Unstructured Interview .....         | 109 | Medulla .....                    | 149        |
| Purpose of Interview.....            | 110 | Cerebellum.....                  | 150        |
| Therapeutic Interview .....          | 110 | Reticular Activating System .... | 150        |
| Investigative Interview .....        | 110 | Spinal Cord .....                | 151        |
| Assessment Interview.....            | 110 | Functions of Brain .....         | 151        |
| CASE HISTORY METHOD OR               |     | ENDOCRINE SYSTEM .....           | 153        |
| CLINICAL METHOD .....                | 111 | Pineal Gland .....               | 154        |
| EXPERIMENTAL METHOD.....             | 113 | Pituitary Gland.....             | 154        |
| Steps of Experimental Method .       | 113 | Thyroid Gland .....              | 155        |
| SURVEY METHOD .....                  | 118 | Parathyroid Gland .....          | 157        |
| Characteristics of Survey.....       | 118 | Thymus Gland .....               | 157        |
| Steps in Survey Method .....         | 119 | Adrenal Gland.....               | 157        |
| Formulation of Problem.....          | 119 | Pancreas Gland .....             | 158        |
| Population and Sampling .....        | 120 | Gonad Gland .....                | 158        |
| Tools of Survey.....                 | 122 |                                  |            |
| Data Collection .....                | 123 | <b>Chapter 5: SENSATION.....</b> | <b>159</b> |
| Interview Schedule.....              | 124 | Sensory System.....              | 159        |
| Data Analysis.....                   | 125 | Sensory Receptor .....           | 160        |
| Results .....                        | 125 | GENERAL CHARACTERISTIC OF        |            |
| DAY BOOK METHOD .....                | 127 | SENSATION.....                   | 161        |
| BIOGRAPHICAL METHOD.....             | 128 | Quality.....                     | 161        |
| STATISTICAL METHOD.....              | 129 | Intensity .....                  | 161        |
| Methods of Study in a Glance ..      | 132 | Duration .....                   | 161        |
|                                      |     | Specific Stimulus.....           | 161        |
| <b>Chapter 4: NERVOUS SYSTEM.133</b> |     | Sensory Threshold.....           | 161        |
| PERIPHERAL NERVOUS                   |     | Sensory Acuity.....              | 162        |
| SYSTEM .....                         | 133 | VISION .....                     | 162        |
| Somatic Nervous System .....         | 134 | Stimulus for Vision .....        | 162        |
| The Neuron .....                     | 134 | Wave Amplitude.....              | 162        |
| Structure of Neuron.....             | 134 | Wave Length .....                | 162        |
| Types of Neurons .....               | 136 | Wave Purity.....                 | 163        |
| Synapse.....                         | 137 | STRUCTURE OF THE EYE .....       | 163        |
| Reflex Arc .....                     | 138 | Outermost Layer .....            | 164        |
| AUTONOMIC NERVOUS                    |     | The Middle Layer, Choroids.....  | 164        |
| SYSTEM .....                         | 139 |                                  |            |

|                                                      |     |
