Hearing 144
The Stimulus for Sound 144143

Attention 197	
Selective Attention 198	
Divided Attention 202	
Theories of Attention 203	
Daily Rhythms 205	
Nature and Causes 205	
Internal Clocks 207	
Circadian Rhythms in Human Performance 208	
Sleep and Dreaming 211	
The Nature of Sleep 211	
The Need for Sleep 213	
Why People Sleep 217	
Sleep Disorders 218	
Dreams 220	
Hypnosis 222	
Hypnotic Phenomena 222	
Theories of Hypnotic Behavior 226	
Meditation 227	
Consciousness and Drugs 228	
Effects of Drugs on Consciousness 229	
Acute Effects of Drugs of Abuse 230	
Why Do People Abuse Drugs? 235	
6	
LEARNING 239	
What Is Learning? 240	
Early Approaches to Learning 240	
Pavlovian Conditioning 241	
Major Features of Pavlovian Conditioning 245	
What Is Learned in Pavlovian Learning? 250	
Contiguity 251	
Adaptive Significance of Pavlovian Learning 253	
Operant Learning 254	
Major Features of Operant Learning and Performance 257	
What Is Learned in Operant Learning? 265	
Nonassociative Learning 268	
Habituation 268	
Sensitization 270	
Modern Development in Learning Theory and Research 271	
Insight Learning 272	
Cognitive Maps 274	
Set or Concept Learning 274	
Observational Learning 276	
Biological Influences on Learning 279	

The Misbehavior of Organisms 280
Species-specific Defense Reactions 281
Learning Taste Aversion 282
Preparedness 285
Learning: And Integration 287

7 MEMORY 293

Approaches to the Study of Memory 294
Introspection 295
Reaction Time and Memory 295
Memory for Nonsense 295
Memory for Meaning 296
Stages of Memory 297
Acquisition of Information 297
Storage of Information 298
Retrieval of Information 300
A Model of Memory 300
Sensory Memory 301
Short-term Memory 303
Long-term Memory 304
Encoding of Information 306
Short-term Memory Codes 306
Maintenance Rehearsal and Short-term Memory 306
Encoding for Long-term Memory 309
Long-term Memory Codes 312
The Storage of Information 313
Episodic and Semantic Memory 313
Network Models of Semantic Memory 317
Feature Comparison Models of Semantic Memory 320
Retrieval Processes 321
Recognition 323
Availability versus Accessibility 324
Recall and Retrieval Cues 325
Retrieval Inhibition 326
Secondary Retrieval Cues 327
Encoding Specificity 327
Serial versus Parallel Searches 330
Retrieval Failure: Forgetting 331
Pathological Forgetting 336
Where Memory is Located: The Physiology of Memory 338

8 LANGUAGE AND THOUGHT 345

Grammar and the Structure of Language 346
Phonology of Language 347
Morphemes 348
Syntax 351
Language Development 354
The Prelinguistic Stage 355
One-word Utterances 356
Telegraphic Language 357
Theories of Language Development 359
Is There a Critical Period in Language Development? 361
Language in Primates 362
Chimpanzee Studies 363
What Are the Linguistic Abilities of Chimps? 365
Language and the Brain 366
Broca, Wernicke, and the Aphasias 367
Right Hemisphere Brain Damage 369
Logical Thinking 369
Deductive and Inductive Reasoning 370
Conditional Reasoning 371
Categorical Syllogisms 373
Hypothesis Formation and Testing 375
Problem Solving 377
The Problem Space 377
General Problem-solving Strategies 378
Problem Representation 382
Obstacles to Problem Solving 384
Decision Making Under Uncertainty 387
The Representativeness Heuristic 387
The Availability Heuristic 388

9 DEVELOPMENT: LIFE-SPAN CHANGES 395

Determinants of Development 397
Genetics and Heredity 397
Behavior Genetics 400
Effects of the Environment 404
Physical Development 405
Prenatal Development 405
Infancy and Childhood 407
From Adolescent to Adult 409
Adult Development and Aging 412
Cognitive Development 414
The World of the Newborn 415

Early Development of Learning and Memory 418	Theories of Complex Motivational Processes: Important Themes 514	Personality Processes 583
Intellectual Development: Piaget's Theory 421	The Motivation Behind Aggression 515	Personality Development 586
Challenges to Piaget's Theory 425	Types of Aggression 515	Evaluating Psychoanalytic Theory 588
Changes in Cognitive Abilities during Aging 428	Physiological Processes in Aggression 516	Freud's Theoretical Successors 589
Social and Personality Development 435	Psychological Processes in Aggression 517	Adler: Inferiority and Compensation 590
Infancy 435	The Motivation to Affiliate 520	Jung: The Collective Unconscious 590
Childhood through Adolescence 437	Theories of Affiliation 520	Horney: The Growth Principle 591
Adulthood and Old Age 449	The Development of Attachment and Affiliation 521	Erikson: Ego Psychology 592
10	The Motivation to Achieve 527	Learning Theories of Personality 592
BASIC MODELS OF MOTIVATION 457	Measures of the Need to Achieve and the Fear of Failure 528	The Marriage of Psychoanalysis and Learning Theories 593
Motivation Concepts and Theory 458	Theoretical Models of Achievement Motivation 529	Skinner and Personality 593
Instinct Theory 458	The Origins of Achievement Motivation: Life Experiences and Attribution Styles 531	The Social Learning Approach 594
Drive Theory 460	Emotions 533	Phenomenological Approaches to Personality 595
The Incentive Model of Motivation 471	Expression and Recognition of Emotion 533	Self Theory 596
Arousal Theories 472	Neural Processing of Emotion 536	Humanistic Personality Theory 597
General Motivational Theory: Acquired Motivation 479	Theories of Emotion 537	13
Drives Theory 479	Classifying Emotions 544	PSYCHOPATHOLOGY 605
Incentive Theory 481	Stress and Coping 545	The History of Abnormality 607
Opponent-Process Theory 481	Stressors and Their Effects 545	Physiological Origins 608
Theories of Basic Motivation: An Appraisal 484	The Link between Stress and Disease 548	Psychosocial Origins 611
Hunger, Eating, and Body Weight 484	Combating Stress 553	Biological or Psychosocial Origins? 612
Patterns and Size of Daily Meals 485	12	Classification of Mental Disorders 612
Long-term Control of Eating and Body Weight 486	PERSONALITY PSYCHOLOGY 561	Syndromes 612
Theories of Eating and Regulation of Body Weight 489	What is the Psychology of Personality? 563	Diagnostic and Statistical Manual (DSM) 613
Sexual Motivation 494	Basic Issues in the Study of Personality 565	Characteristics of Mental Disorders 616
Hormonal Mechanisms 494	Trait Theories of Personality 566	Perspectives on Mental Disorders 617
Neural Mechanisms 496	Allport's Trait Theory of Personality 567	Schizophrenia 618
Characteristics of Sexual Behavior 497	Cattell's Factor-Analytic Theory of Traits 568	Affective Disorders 630
Contribution of Learning to Sexual Behavior 499	Eysenck's Trait-Type Theory of Personality 571	Anxiety Disorders 638
What Sexual Behavior Tells Us about Motivation 500	The Person or the Situation: Which Determines Behavior? 574	Other Mental Disorders 645
Homosexuality 501	Behavioral Consistency 575	14
11	Biological Theories of Personality 576	ASSESSMENT OF PERSONALITY, BEHAVIOR, AND INTELLIGENCE 653
COMPLEX MOTIVATIONAL PROCESSES, EMOTION, STRESS AND COPING 507	Body Types and Personality 577	The Goals of Assessment 654
Theories of Complex Motives 508	Genetics and Personality 579	Psychometric Criteria for the Evaluation of Assessment Devices 656
An Attribution Theory of Motivation 508	Psychoanalytic Theory 580	Reliability 656
Self-efficacy Theory 511	The Structure of Personality 581	Validity 658
		Strategies of Assessment 661
		Interviewing 661
		Projective Tests 663
		Objective Tests 667

xviii CONTENTS

- Direct and Behavioral Assessment 672
- The Science and Art of Assessment:
Integrating Information 675
- Assessing Intelligence 677
- IQ Tests 679
- What IQ Tests Measure 683
- Origins of Intelligence and Mental Test
Performance 688
- Special Topics in Intelligence 691

- The Channel 773
- The Receiver 774
- The Target 775
- Cognitive Response Theory 775
- Behavior and Attitudes 776
- Problems in Predicting Behavior from
Attitudes 777
- Successful Prediction of Behavior 777
- Behavior and Attitudes: A Reciprocal
Relationship 779

- Experimental Control: Manipulation of
Independent Variables A6
- Internal Validity A7
- Random Assignment of Subjects A8
- External Validity A8
- Experimental Settings A9
- Threats to Experimental Research A9
- Nonexperimental Research
Methods A10
- Research Ethics A13
