Contents

Chordata—An Introduction	1—9
Chordate Animals. Diversity of Chordates. Three Fundamental Characters Common to Chordates and Higher Non-chordates.	
Comparison (Differences) of Chordates over Other Phyla. Major Subdivisions of Phylum Chordata. Origin and Ancestry of Chordata. Brief Classification of Chordata.	
General Characters of Phylum Chordata.	

Section I : Protochordates

<i>Balanoglossus</i> : A Tongue Worm	10—22
Systematic Position of <i>Balanoglossus</i> (Hemichordata).	

Phylum I. Hemichordata	23—26
Characters. Classification. Other Hemichordates : 1. <i>Saccoglossus</i> (= <i>Dolichoglossus</i>). 2. <i>Rhabdopleura</i> . 3. <i>Cephalodiscus</i> . 4. <i>Atubaria</i> .	

<i>Herdmania</i> : A Sea-Squirt	27—41
Systematic Position of <i>Herdmania</i> (Urochordata).	

Phylum II. Urochordata	42—49
Characters. Classification. Other Urochordates : 1. <i>Ascidia</i> . 2. <i>Ciona</i> . 3. <i>Botryllus</i> . 4. <i>Molgula</i> . 5. <i>Pyrosoma</i> . 6. <i>Doliolum</i> . 7. <i>Salpa</i> . 8. <i>Oikopleura</i> .	

<u><i>Branchiostoma</i> (= <i>Amphioxus</i>) : The Lancelet</u>	50—65
---	-------

Phylum III. Cephalochordata	66—68
Characters. Primitive, Degenerate & Specialized Characters of <i>Branchiostoma</i> (Cephalochordata). Affinities & Systematic Position.	

Protochordates : General & Comparative	69—76
Significance of Protochordates. Comparison of three Protochordate phyla (1. General Comparison. 2. Habits and habitat. 3. Alimentary canals and glands. 4. Pharynx. 5. Food and feeding. 6. Excretory system. 7. Nervous system).	

10. Class 1. Ostracodermi (Extinct)
Occurrence. Important Features. Classification. Biological Significance and Affinities.
11. Type 4. *Petromyzon* : The Lamprey
Economic Importance.
12. Class 2. Cyclostomata
General Characters. Classification. Other Cyclostomes : 1. *Ambloplites* (= *Bdellostoma*). Differences between Lampreys and Hagfishes. Affinities. Phylogenetic Status of Cyclostomata.
13. Class 3. Placodermi (Extinct)
The First Jawed Vertebrates. Occurrence. Important Features. Biological Significance.
14. Type 5. *Scoliodon* : The Dogfish, a Cartilaginous Fish
Economic Importance.
15. Class 4. Chondrichthyes : The Cartilaginous Fishes
General Characters. Classification. Other Chondrichthyes : 1. *Squalus*, *Mustelus*). 2. Sharks (*Rhincodon*, *Cetorhinus*, *Carcharodon*, *Chlamydoselachus*, *Hemirhamphus*, *Cladoselache*, *Stegostoma*, *Sphyrna* (*Manta*, *Mobula*, *Raja*, *Myliobatis*, *Dasyatis*, *Torpedo*). 4. Sawfish (*Rhinobatus*). 5. Chimaeras (*Hydrolagus* = *Chimaera*).
16. Type 6. *Labeo rohita* : Rohu, a Bony Fish
Economic Importance.
17. Class 5. Osteichthyes : The Bony Fishes
General Characters. Classification. Other Osteichthyes : [I] Lobe-finned fish (*Neoceratodus*, *Lepidosiren*, *Protopterus*) [II] Lung fish (*Acipenser*, *Polyodon*, *Lepisosteus*, *Amia*). [III] Clariid fish (*Clarius*, *Heteropneustes*, *Wallago*). [IV] Exocoetoid fish (*Exocoetus*, *Hippocampus*, *Diodon*).

ss Pisces & Fish General
 Characters of Superclass Pisces. Classification of Superclass Pisces. Comparison
 Chondrichthyes and Osteichthyes. Dipnoi. Types of Fins. Origin of Fins. Types of
 ns and Tails. Scales of Fishes. Air Bladder or Swim Bladder. Accessory Respi
 gans. Parental Care in Fishes. Migration in Fishes. Economic Importance c

Rana tigrina : Common Indian Bull Frog

157—18

Amphibia

181—1

Characters. Classification. Other Amphibia : [I] Limbless Amphibians (*Ichthyop*
ilous, *Typhlonectes*). [II] Salamanders and Newts (*Andrias*=*Megalobatrac*
nchus, *Ambystoma*, *Axolotl*, *Salamandra*, *Taricha*=*Triturus*, *Trilolriton*, *Pletho*
z, *Proteus*, *Necturus*, *Siren*). [III] Frogs and Toads (*Ascaphus*, *Alytes*, *Bombin*
Pipa, *Bufo*, *Hyla*, *Rhacophorus*, *Astylosternus*, *Rana goliath*, *Phyllobates*).

189—

ia : General Account

and Paedogenesis. Parental Care in Amphibia. Origin and Ancestry of Amp
 Importance of Amphibia.

Section III. Higher Vertebrates

Uromastix hardwickii : The Spiny Tailed Lizard

195

Importance.

Calotes versicolor : The Garden Lizard

21

: General Account

2

ions. Locomotion. Hearing. Feeding Mechanism. Poison Apparatu
 sm. Snake Venom. Symptoms of Snake Bite (Effects of Venom). Antiven
 ite). First aid Treatment of Snake Bite. Distinction between Pois
 onous Snakes of India.

Reptilia

Ch

(Bungarus). 3. Pitless vipers (*Vipera*, *Echis*). 4. Pit vipers (*Ancistrodon*, *Lachesis*, *Callophis*). 5. Sea snakes (*Hydrophis*). 6. Coral snakes (*Hemibungarus*, *Callophis*). [V] Crocodilians. Distinction of *Crocodylus*, *Alligator* and *Gavialis*.

26. Reptilia : General Account

Origin of Reptiles. Evolution and Adaptive Radiation. Mesozoic Reptiles. Distinction of Reptiles from Amphibians.

27. Type 10. *Columba livia* : The Common Rock Pigeon

28. Class 8. Aves : The Birds

General Characters. Classification. Common Birds of India : 1. House Sparrow (*Passer domesticus*). 2. Crow (*Corvus*). 3. Weaver bird (*Ploecious*). 4. Common Myna (*Acridothera tristis*). 5. Myna (*Gracula*). 6. Hoopoe (*Upupa*). 7. Koel (*Eudynamis*). 8. Large Indian Cuckoo (*Cuculus*). 9. Kites (*Milvus*, *Haliastur*). 10. Vultures (*Sarcogyps*, *Pseudogyps*). 11. (Rubo, Ketupa, Tyto). 12. Peacock (*Pavo*). 13. Woodpeckers (*Brachypternus*, *Dendrocypha*).

29. Aves : General Account

Flightless Birds (Ratitae). Differences between Ratitae and Carinatae. Affinities of Birds with Reptiles. *Archaeopteryx* and its significance. Origin and Ancestry of Birds. Origin of Flight. Glorified Reptiles. Birds as a Flying Machine. Mechanism of Flight (Physiology and Mechanics). Modes of Flight. Aerial or Flight Adaptations. Types of Beaks. Types of Feet or Claws. Kinds of Palate. Migration of Birds. Economic Importance of Birds.

30. Type 11. *Oryctolagus* : The Rabbit

Differences between Rabbit and Hare. Economic Importance.

31. Class 9. Mammalia

General Characters. Classification. Other Mammalia : [I] Egg-laying (Oviparous) or Monotremes (1. *Tachyglossus*, 2. *Zaglossus*, 3. *Ornithorhynchus*). [II] Pouch-bearing or Marsupials (4. *Didelphis*, 5. *Macropus*, 6. *Phascogale*). [III] Insect-eating or Insectivora (7. *Sorex*, 8. *Talpa*, 9. *Erinaceus*). [IV] Flying mammals (10. *Cynopterus*, 11. *Rhinolophus*, 12. *Desmodus*). [V] Toothless mammals (13. *Myrmecophaga*, 14. *Dasypus*). [VI] Other Anteaters (16. *Manis*, 17. *Cyclops*). [VII] Gnawing mammals (18. *Rattus*, 19. *Mus*, 20. *Funambulus*, 21. *Hystrix*, 22. *Castor*). [VIII] Carnivorous mammals (24. *Panthera leo*, 25. *Felis tigris*, 26. *Hyaena*, 27. *Canis lupus*, 28. *Herpestes*, 29. *Phocidae*). [IX] Cetacean mammals (30. *Phocaena*, 31. *Delphinus*, 32. *Stenella*, 33. *Phocaena*, 34. *Delphinus*, 35. *Stenella*, 36. *Phocaena*, 37. *Delphinus*).

Class Prototheria (Order Monotremata)
Characters. Classification. Affinities.

380—382

Class Metatheria (Order Marsupialia)
Characters. Classification. Distribution of Metatheria. Affinities.

383—385

Class Mammalia : General Account
Mammals. Aquatic Mammals and Adaptations. Flying (Volant) Mammals
Adaptations. Adaptive Radiation in Mammals. Adaptive Convergence in Mammals.
Origin and Ancestry of Mammals. Economic Importance of Mammals.

386—401

Section IV : Vertebrate Osteology

Endoskeleton of *Scolidon*

402—406

Endoskeleton of *Labeo rohita*

407—410

Endoskeleton of Frog

411—419

Endoskeleton of *Varanus*

420—430

Endoskeleton of Fowl

431—442

Endoskeleton of Rabbit

443—453

Section V : Vertebrate Embryology

Introduction to Vertebrate Embryology

454—457

Development of *Balanoglossus*

458—459

Development of *Herdmania*

460—463

Development of *Branchiostoma*

464—468

Development of Frog

469—476

Development of Chick (Fowl)

477—485

Structure of Egg of Hen or Fowl. Extra-embryonic or Foetal Membranes in Chick.

486—489

Development of Rabbit

490—493

Placentation in Mammals

49. Organ Histology of Frog. 1. Skin of Frog. 2. Skin of Rabbit. 3. Stomach. 4. Duodenum of Rabbit. 5. Oesophagus of Rabbit. 6. Stomach. 7. Duodenum of Rabbit. 8. Liver of Rabbit. 9. Duodenum of Rabbit. 10. Ileum of Rabbit. 11. Colon of Rabbit. 12. Rectum of Rabbit. 13. Bone of Frog. 14. Liver of Rabbit. 15. Pancreas. 16. Lung of Frog. 17. Lung of Rabbit. 18. Catilage. 19. Bone of Frog. 20. Bone of Rabbit. 21. Blood. 22. Spleen. 23. Kidney of Frog. 24. Kidney of Rabbit. 25. Kidney of Rabbit. 26. Testis. 27. Ovary of Frog.

50. Wild Life of India

What is Wild Life? Brief History of Indian Wild Life. Importance (Value) of Wild Life. The Vanishing Wild Life. Important Indian Wild Life (1. Indian Crocodile, 2. Indian Bustard, 3. Common Peafowl, 4. Hornbills, 5. Indian Elephant, 6. Indian Tiger, 7. Indian Rhino). Sanctuaries and National Parks. Wild Life Conservation. Methods of Wild Life Conservation.

Section VII : Comparative Anatomy of Vertebrates

51. Integument & its Derivatives in Vertebrates

Comparative Anatomy : Meaning and Purpose of Study. Epidermal Integument (Structure, Functions, Derivatives (Glands, Scales and Scutes, Digital Cornification, Feathers, Hairs). Integument in Different Classes of Chordates.

52. Endoskeleton in Vertebrates

Skeleton : Meaning, Types, Functions, Subdivisions. Skull : Types of Bones, Development (History and Development). Skull in Different Vertebrates. Suspensoria or Jaw. Vertebral Column (Structure and Types of Vertebrae, Process, Centra).

53. Digestive System in Vertebrates

Embryonic Digestive Tract. Alimentary Canal : Parts, Derivatives, Digestive

54. Respiratory System in Vertebrates

Respiratory Organs : Gills (Internal or true gills, External or larval gills). Ducts. Accessory Respiratory Organs. Swim Bladders.

55. Circulatory System in Vertebrates

Circulatory System : Necessity, Parts. Evolution of Heart in Vertebrates. M. Aortic Arches in Vertebrates. Venous System (Embryonic, Modifications in Veins).

56. Urinogenital System in Vertebrates

Vertebrate Kidneys and Ducts (Structure, Origin, Archinephros, Metanephros). Urinary Bladders. Gonads. Copulatory Organs.

569—576

System in Vertebrates
Nervous System : Functions, Division, Anatomy (The Neuron). Nature of Nerve Impulse.
Autonomic Nervous System. Comparative Account of Brain in Vertebrates.. Cranial

577—580

Organs in Vertebrates
Classification of Sense Organs. Olfactory Organs. Gustatory Organs,
Senses. Statocoustic Organs or Ears.

581—585

Endocrine System in Vertebrates
Hormones, Endocrine Glands as a System. Neuro-
endocrine Interrelationships. Pheromones.

586—623

Some Comparative Charts of Vertebrate Animals Types
Distribution and Habits. 2. External Features. 3. Integument and Exoskeleton.
5. Pectoral Girdle. 6. Pelvic Girdle. 7. Limb Bones. 8. Digestive System.
Respiratory System. 10. Hearts. 11. Brain. 12. Urinogenital System.

624—630

631—632
