

Developmental Psychopathology

FROM INFANCY THROUGH ADOLESCENCE

T H I R D E D I T I O N

Charles Wenar

CONTENTS

Preface	xiii	The Traditional Approach: DSM	74
1. THE DEVELOPMENTAL APPROACH	1	The Multivariate Statistical Approach: CBCL	78
Overview	2	The Classifications: Health and Normal Problem Behavior	83
Specific Models of Childhood Psychopathology	7	The Classifications: The Psychopathologies	84
Some Comments about Methodology	29	Longitudinal Studies	87
		Concluding Remarks	99
2. NORMAL DEVELOPMENT	33	4. AUTISM: A SEVERE DEVIATION IN INFANCY	101
Attachment	34	Characteristics and Epidemiology	102
Initiative	39	Developmental Pathway	105
Self-Control	43	Specific Delays and Deviations	106
Conscience	47	Delays and Deviations in Social Relations	116
Cognition	50	Comments on Research	125
Anxiety	52	The Developmental Model	126
Sex	54	Interpersonal Hypotheses	127
Aggression	57	Organic Hypotheses	127
Social Relations	60	Treatment	129
Work	64	5. DEVIATIONS IN INITIATIVE AND EARLY SOCIALIZATION	13
Lessons from Normal Development	67	Oppositional-Defiant Disorder	13
Integration	68	Feeding Disorders	1
3. THE BRIDGE TO THE PSYCHOPATHOLOGIES	71		
The Conceptual Bridge	71		
The Diagnostic Bridge	72		

Obesity	161	The Organic Context	269
Enuresis	164	An Integrative Model	270
The Developmental Model	158	Treatment	270
6. EARLY DEVIATIONS IN CURIOSITY AND TASK ORIENTATION	155	10. SCHIZOPHRENIA: A SEVERE DEVIATION OF MIDDLE CHILDHOOD AND ADOLESCENCE	277
Attention-Deficit Hyperactivity Disorder	156	Childhood Schizophrenia	278
Learning Disabilities	176	Adolescent Schizophrenia	282
7. DEPRESSION, SUICIDE, AND THE CONSEQUENCES OF LOSS	189	11. PSYCHOPATHOLOGIES AND RISKS OF THE ADOLESCENT TRANSITION	297
Depression in Middle Childhood	190	Anorexia Nervosa	299
Parental Loss	196	Bulimia Nervosa	306
Loss of Self-Worth or Self-Esteem	203	A Comparison of Eating Disorders	307
Children of Depressed Mothers	208	Treatment	307
Treatment	209	Substance Abuse	310
Depression in Adolescence	210	Risks of a Homosexual Identity	326
Adolescent Suicide	211	12. THE DEVELOPMENTAL CONSEQUENCES OF MENTAL RETARDATION	337
Summary	216	Changing Definitions	337
8. ANXIETY DISORDERS AND EXCESSIVE SELF-CONTROL	219	The Intellectual Deficit	339
The Diagnostic Controversy	220	Adaptive Behavior	339
The Anxiety Disorders	220	Etiology	341
Fears and Phobias	226	Down Syndrome Children	348
School Phobia	233	Developmental Models	352
Separation Anxiety Disorder	237	Remedial and Preventive Programs	352
Obsessive-Compulsive Disorder	238	13. RISKS OF PHYSICAL ILLNESS AND BRAIN DAMAGE	357
Other Anxiety Disorders	239	Pediatric Psychology	357
9. CONDUCT DISORDERS AND INADEQUATE SELF-CONTROL	243	New Challenges in Intervention	364
Types of Conduct Disorders	244	Brain Damage	368
Undersocialized, Aggressive Conduct Disorder	246	Minimal Brain Dysfunction	373
Normal and Inadequate Self-Control	247	14. RISKS IN THE INTERPERSONAL CONTEXT: CHILD MALTREATMENT AND DIVORCE	379
The Preschool Period	248	Privation	380
Middle Childhood and Adolescence	251	Physical Abuse and Neglect	383
The Intrapersonal Context	255		
The Interpersonal Context: The Family	264		
The Superordinate Context	267		

Emotional Maltreatment	394		
Sexual Abuse	396		
The Risk of Divorce	407		
15. RISKS OF ETHNIC MINORITY CHILDREN	415	17. REMEDIATION AND PREVENTION	469
Definitions	418	The Psychoanalytic Approach	470
General Issues	418	The Client-Centered Approach	476
Identity in Black Adolescents	422	The Behavior Therapies	479
Cultural Diversity and the Japanese Child	427	Research on the Effectiveness of Therapy	488
Helping Mexican-American Families and Children	432	The Family Approach	492
A Final Challenge	440	Group Therapies	496
		The Community Mental Health Movement	496
16. PSYCHOLOGICAL ASSESSMENT	443	Glossary	505
The Assessment Process	444	References	513
The Developmental Dimension	445	Acknowledgments	567
Initial Sources of Data	445	Indexes	
Psychological Tests	450	Name Index	571
Behavioral Assessment	462	Subject Index	581
Clinical Assessment: Art and Science	467
