

Outline Studies in Biology

Biochemical Genetics

Second Edition

R.A.Woods

Contents

1. Organisms, genes and enzymes	<i>page 7</i>
2. Nucleic acids as the genetic material	16
3. The genetic code	29
4. Mutants and metabolism	48
5. The genetic control of metabolism	60
6. Gene structure	71
Suggestions for further reading	77
Index	79
