UNIT 3 HOW DOES EXPERIENCE AFFECT BEHAVIOUR AND MENTAL PROCESSES?

CHAPTER 01 NERVOUS SYSTEM FUNCTIONING 2

The human nervous system:	Neurotransmitters: Chemical messengers at
Our communication network.....3	the synapse.....24
The central nervous system (CNS).....4	Interference to neurotransmitter function.....31
The peripheral nervous system (PNS).....7	Other neurological diseases caused by
The nervous system's conscious and	neurotransmitter dysfunction.....35
unconscious response to sensory stimuli.....13	CHAPTER SUMMARY.....37
Neurons: The nervous system's interconnected	APPLY YOUR KNOWLEDGE AND SKILLS.....38
building blocks.....19	

CHAPTER 02 STRESS 41

Stress: A psychobiological process.....42	Stress as a psychological process.....62
Stress.....42	Lazarus and Folkman's transactional model of stress
Sources of stress.....45	and coping.....63
Stress responses.....53	Stress management techniques: Learning to cope.....65
Stress as a biological process.....54	CHAPTER SUMMARY.....72
Selye's general adaptation syndrome (GAS).....57	APPLY YOUR KNOWLEDGE AND SKILLS.....72

CHAPTER 03 NEURAL BASIS OF LEARNING AND MEMORY 75

What is learning?.....76	Synaptic plasticity: The changing neuron.....91
Synapse formation: Synaptogenesis and its link to	The role of glutamate in memory:
learning.....78	Causing neurons to fire.....91
Neural plasticity.....80	The role of adrenaline in memory: The consolidation of
When neurons communicate.....82	emotionally arousing experiences.....92
The process of long-term potentiation (LTP).....83	CHAPTER SUMMARY.....100
The process of long-term depression (LTD).....88	APPLY YOUR KNOWLEDGE AND SKILLS.....101
Neurotransmitters and neurohormones:	
Their role in memory and learning.....89	

CHAPTER 04 MODELS TO EXPLAIN LEARNING 104

What produces learning?.....105	Observational learning: A method of social learning.....120
Classical conditioning: Associating a stimulus	Ethical issues in learning experiments.....125
with a response.....105	CHAPTER SUMMARY.....129
Operant conditioning: A three-phase model of learning.....111	APPLY YOUR KNOWLEDGE AND SKILLS.....130

CHAPTER 05 MEMORY 132

Memory: Our link to the past, present and future.....133	Effects of brain trauma on memory.....149
Atkinson and Shiffrin's multi-store model of memory.....134	Factors influencing the ability to remember.....157
Storing long-term memories.....137	Reconstructing memories: How accurate is memory?.....161
Brain areas involved in LTM storage.....140	CHAPTER SUMMARY.....165
Retrieval methods: Accessing information	APPLY YOUR KNOWLEDGE AND SKILLS.....166
stored in LTM.....145	

UNIT 4

HOW IS WELLBEING DEVELOPED AND MAINTAINED?

CHAPTER 06 CONSCIOUSNESS 170

What is consciousness?	171
Investigating consciousness	172
Normal waking consciousness	174
Altered states of consciousness	175
Physiological responses indicating state of consciousness	176
Other techniques for investigating consciousness	178

CHAPTER 07 IMPORTANCE OF SLEEP 207

Sleep	208
Biological rhythms	215
The purpose of sleep	219

CHAPTER 08 SLEEP DISTURBANCES AND TREATMENTS 229

Sleep	230
Sleep-wake cycle: A circadian rhythm	230
Circadian phase disorders: Disturbing circadian rhythms	233

CHAPTER 09 MENTAL HEALTH 264

Defining mental health	265
Characteristics of a mentally healthy person	267
Ethical implications of mental health research	270
Development and progression of mental health disorders	272

CHAPTER 10 BIOPSYCHOSOCIAL APPROACH TO EXPLAIN SPECIFIC PHOBIA 296

Stress, phobia and anxiety	297
Variations of stress, phobia and anxiety on a mental health continuum	300
Development of specific phobia	303
Evidence-based treatment options	309
Maintenance of mental health	319
Models of behaviour change	323
CHAPTER SUMMARY	326
APPLY YOUR KNOWLEDGE AND SKILLS	327

CHAPTER 11 SCIENTIFIC RESEARCH METHODS 330

Psychology and the scientific method	331
Experimental research: Where cause meets effect	339
Sampling procedures: Choosing participants	347
Data-collection techniques	351
Statistics: Analysing and interpreting data	355
Generalisation of findings	358
Ethical principles and professional conduct	359
CHAPTER SUMMARY	363
APPLY YOUR KNOWLEDGE AND SKILLS	363

GLOSSARY	367
SELECTED ANSWERS	379
REFERENCES	397
INDEX	407

Changes in a person's psychological and physiological state	181
Drug-induced ASCs	187
Sleep deprivation and consciousness	189
Legal blood alcohol concentrations and consciousness	193
CHAPTER SUMMARY	203
APPLY YOUR KNOWLEDGE AND SKILLS	204

Sleep-wake cycle across the lifespan	223
CHAPTER SUMMARY	226
APPLY YOUR KNOWLEDGE AND SKILLS	227

Partial sleep deprivation: Affective, behavioural and cognitive effects	241
Types of sleep disorders	247
Treating sleep disorders	256
CHAPTER SUMMARY	260
APPLY YOUR KNOWLEDGE AND SKILLS	261

Biopsychosocial approach to physical and mental health	274
Cumulative risk	289
CHAPTER SUMMARY	291
APPLY YOUR KNOWLEDGE AND SKILLS	293
