PRELUDE

First of all, I would like to thank my God who has bestowed me life and chance to complete this book.

Everybody, who has a little knowledge of linguistic knows very well the importance of verbs in relation to sentences and discussion. The verbs play a key role in building up one's vocabulary. Vocabulary is the main thing because of that one may speak or write fluently. This rule is applicable not only in Urdu or English language but for all the living languages all around the world.

Individually, a verb may convey only its meaning or meanings and it will be difficult for a student or reader to use it in a sentence. Keeping this fact in mind, I have tried my best to simplify the verbs and their usage including their Urdu meanings and three forms named: Present, Past and Past Participle.

I am hopeful that all the readers, students, teachers and general users will enjoy this unique effort and send me their precious suggestions to improve this book.

Thanks are due to all those books, magazines, encyclopedias, teachers and friends with whom I have consulted.

Suggestions towards improvement in this book will be welcomed.
