

GCSE
Physics

GCSE Physics

Complete Revision & Practice

Contents

How Science Works

The Scientific Process	1
Quality of Data	3
Limits of Science	5
Planning Investigations	6
Collecting Data	7
Organising and Processing Data	9
Presenting Data	10
Interpreting Data	11
Concluding and Evaluating	12

Section 1 — Heat and Energy

Heat and Temperature	13
Kinetic Theory	14
Conduction	15
Convection	16
Heat Radiation	17
Condensation and Evaporation	18
Warm-Up and Exam Questions	20
Rate of Heat Transfer	22
Energy Efficiency in the Home	24
Specific Heat Capacity	26
Warm-Up and Exam Questions	28
Energy Transfer	30
Efficiency of Machines	31
Energy Transformation Diagrams	33
Warm-Up and Exam Questions	34
Power Stations	35
Nuclear Energy	36
Wind and Solar Energy	37
Wave and Tidal Energy	38
Biofuels and Geothermal Energy	39
Hydroelectricity and Pumped Storage	40
Warm-Up and Exam Questions	41
Energy Sources and the Environment	43
Comparison of Energy Resources	44
Electricity and the National Grid	45
Warm-Up and Exam Questions	47
Revision Summary for Section 1	48

Section 2 — Waves and Their Effects

Wave Basics	49
Wave Properties — Reflection	51
Ray Diagrams	52
Wave Properties — Diffraction	53
Wave Properties — Refraction	54
Sound Waves	55
Analogue and Digital Signals	56
Warm-Up and Exam Questions	57
EM Waves and Communication	58
Microwaves	59
Infrared	60
Infrared and Visible Light	61
Ionising Radiation	62
X-Rays and Gamma Rays	63
UV Radiation and Ozone	64
Warm-Up and Exam Questions	65
The Greenhouse Effect	66
Global Warming and Climate Change	67
Warm-Up and Exam Questions	69
Revision Summary for Section 2	70

Section 3 — Forces and Energy

Speed and Velocity	101
Distance-Time Graphs	102
Acceleration	103
Velocity-Time Graphs	104
Weight, Mass and Gravity	105
Warm-Up and Exam Questions	106
Resultant Forces	107
Forces and Acceleration	108
Frictional Forces	109
Terminal Velocity	110
Warm-Up and Exam Questions	111
Stopping Distances	112
Momentum and Collisions	113
Work Done	114
Power	115
Warm-Up and Exam Questions	116
Kinetic Energy	117
Gravitational Potential Energy	118
Energy and Roller Coasters	119
Car Design and Safety	120
Forces and Elasticity	121
Warm-Up and Exam Questions	122
Revision Summary for Section 3	123

Section 4 — Electricity

Static Electricity	124
Dangers of Static Electricity	125
Uses of Static Electricity	126
Warm-Up and Exam Questions	127
Current and Electricity	128
Potential Difference	129
Circuits — The Basics	130
V-I Graphs	131
Resistance and $V = I \times R$	132
Circuit Devices	133
Warm-Up and Exam Questions	134
Series Circuits	135
Parallel Circuits	136
Mains Electricity and Oscilloscopes	137
Oscilloscopes	138
Warm-Up and Exam Questions	139
Electricity in the Home	140
Fuses and Earthing	141
Energy in Circuits	142
Power Ratings	143
Energy Transfer in Circuits	144
Warm-Up and Exam Questions	145
The Cost of Electricity	146
Choosing Electrical Appliances	147
Warm-Up and Exam Questions	148
Revision Summary for Section 4	149

Section 5 — The Atom and Radioactivity

Atomic Structure	150
Atoms and Ionising Radiation	151
Ionising Radiation	152
Warm-Up and Exam Questions	153
Half-Life	154

Uses of Radiation	141
Radioactivity Safety	143
<i>Warm-Up and Exam Questions</i>	145
Nuclear Fission	146
Nuclear Fusion	148
<i>Warm-Up and Exam Questions</i>	150
Revision Summary for Section 5	151

Section 6 — Generating Electricity

Magnetic Fields	152
The Motor Effect	154
The Simple Electric Motor	155
<i>Warm-Up and Exam Questions</i>	156
Electromagnetic Induction	158
Transformers	160
<i>Warm-Up and Exam Questions</i>	163
Revision Summary for Section 6	164

Section 7 — Medical Applications of Physics

X-rays in Medicine	165
Ultrasound	167
Medical Imaging	169
<i>Warm-Up and Exam Questions</i>	170
Endoscopes and Oximeters	171
PET Scanning	172
The Heart and Pacemakers	173
ECGs	174
<i>Warm-Up and Exam Questions</i>	175
Revision Summary for Section 7	177

Section 8 — Mechanics and Gases

Turning Forces and the Centre of Mass	178
Balanced Moments and Levers	180
Moments and Stability	182
<i>Warm-Up and Exam Questions</i>	183
Pendulums	184
Circular Motion	185
Hydraulics	186
<i>Warm-Up and Exam Questions</i>	188
Gas Behaviour	189
More on Gas Behaviour	191
<i>Warm-Up and Exam Questions</i>	193
Revision Summary for Section 8	194

Section 9 — Waves and Lenses

Refractive Index	195
Total Internal Reflection	196
Total Internal Reflection and Prisms	197
Lenses and Images	198
Converging Lenses	199
Diverging Lenses	200
Magnification	201

Power and Focal Length	202
<i>Warm-Up and Exam Questions</i>	203
The Eye	205
Correcting Vision	206
Telescopes	207
Diffraction and Telescopes	209
<i>Warm-Up and Exam Questions</i>	210
Revision Summary for Section 9	211

Section 10 — The Earth and the Universe

The Earth's Structure	212
Continental Drift	213
Seismic Waves	214
<i>Warm-Up and Exam Questions</i>	215
The Solar System	216
Beyond the Solar System	218
<i>Warm-Up and Exam Questions</i>	220
The Life Cycle of Stars	221
Star Spectra	223
Observing the Sky	225
Eclipses	227
<i>Warm-Up and Exam Questions</i>	228
Coordinates in Astronomy	230
Movement of Planets	231
Astronomical Distances	232
Brightness	233
The Scale of the Universe	234
<i>Warm-Up and Exam Questions</i>	236
Red-shift	237
The Hubble Constant	238
The Origin of the Universe	239
Space Telescopes	240
Space Programmes	241
Observatories	242
<i>Warm-Up and Exam Questions</i>	243
Revision Summary for Section 10	244

Section 11 — Electricity for Gadgets

Potential Dividers	245
Thermistors	246
Transistors	247
<i>Warm-Up and Exam Questions</i>	248
Logic Gates	249
Using Logic Gates	250
Making Logic Gates	251
LEDs and Relays in Logic Circuits	252
<i>Warm-Up and Exam Questions</i>	253
Diodes	254
Diodes and Rectification	255
Capacitors	256
<i>Warm-Up and Exam Questions</i>	257
Revision Summary for Section 11	258

Answers	259
Index	260
