## Brief Contents

or li	GETTING STARTED	1
PARI	Chapter 2 Basic Training 32	, E
	Integrating Case Study I: Olsen's Preowned CD Players 68	
PART II:	DEMAND	69
Į,	Chapter 3 Demand Theory and Analysis 71  Chapter 4 Regression Techniques and Demand Estimation 112.  Chapter 5 Business and Economic Forecasting 144  Integrating Case Study II: Southern Turkey 178	
	integrand 176	
PART III	: PRODUCTION AND COSTS	181
	Chapter 6 Production Theory and Analysis 183 Chapter 7 Cost Theory and Analysis 230	*  
	Chapter 8 Linear Programming 269 Integrating Case Study III: Bond Construction Company 303	
PART IV	MARKET STRUCTURE	305
	Chapter 9 Perfect Competition and Monopoly 307	100
N 61	Chapter 10 Monopolistic Competition, Oligopoly, and Barriers to Entry Chapter 11 Game Theory and Strategic Behavior 370 Integrating Case Study IV: Pacific Copper 397	340
PART V	PRICING DECISIONS	39
	Chapter 12 Pricing of Goods and Services 401 Chapter 13 Pricing and Employment of Inputs 436	* 16.

#### FART VI: RISK AND CAPITAL BUDGETING

Chapter 14 Risk and Decision Making 467

Chapter 15 Capital Budgeting 504

Integrating Case Study VI: Bentley Enterprises, Inc. 541

#### PART VII: TECHNOLOGICAL CHANGE AND LOCATION THEORY

Chapter 16 Technological Change in a Global Economy 545

Chapter 17 Locating the Firm in a Global Economy 572

Integrating Case Study VII: GMG Entertainment, Inc. 600

#### PART VIII: BUSINESS DECISIONS AND GOVERNMENT

Chapter 18 Taxes and Decision Making 605

Chapter 19 Antitrust and Regulation 630

Integrating Case Study VIII: Autovideo (Un), Ltd. 662

#### Contents

XIII

Preface PART I: GETTING STARTED CHAPTER 2 **Basic Training** 32 Preview 33 CHAPTER 1 Introduction to Managerial Economics Functional Relationships: Total, Average, and Marginal 33 Preview Economic Models The Circular Flow of Economic Probability and Probability Activity Distributions 42 The Nature of the Firm Probability The Rationale for the Firm Probability Distributions 43 The Objective of the Firm Statistics of a Probability Maximizing versus Satisficing Distribution The Principal-Agent Problem 11 Summary Constrained Decision Making 12 Discussion Questions 48 The Concept of Economic 49 Problems Profit 14 Appendix-Calculus and Managerial Profit in a Market System 17 Economics 53 Economics and Decision The Derivative of a Function 19 Making Higher-Order Derivatives 61 20 Summary Calculus and Optimization Discussion Questions 21 The Partial Derivative 64 Optimization and Multivariate Problems Functions 65 Appendix-Present-Value 66 Problems Analysis 24 Integrating Case Study I: Present Value of an Amount 24 Olsen's Preowned CD Players 68 > crit Value of an Annuity 26

Problem

TARREST AT EXAMINATION	The second secon
CHAPTER 3 Demand Theory and Analysis 71	Problems 111
and Anslysis 71 Preview 72	and Demand Estimation
Individual Demand 72	Preview 113
Market Demand 73  Determinants of Market Demand 74  The Market Demand Equation 76  Market Demand versus Firm  Demand 77	Regression Techniques 113  Estimating Coefficients 113  Testing Regression  Estimates 117  Prediction Using Regression
Total and Marginal Revenue 78	Equations 121
Price Elasticity 80	Multiple Regression 123
Point versus Arc Elasticity 81	Demand Estimation 124
Price Elasticity and Marginal Revenue 84	Development of a Theoretical  Model 124
Determinants of Price Elasticity 86	Data Collection 125
Price Elasticity and Decision	Choice of Functional Form 126
Making 88	Estimation and Interpretation of Results 128
Income Elasticity 90	Problems with Regression
Inferior Goods, Necessities,	Analysis 131
and Luxuries 91	Omitted Variables 131
Income Elasticity and Decision  Making 92	Identification 133
Cross Elasticity 93	Multicollinearity 135
Substitutes and Complements 94	Summary 136
Cross Elasticity and Decision	Discussion Questions 137
Making 95	Problems 137
Summary 96	
Discussion Questions 97	CHAPTER 5 Business and Economic
Problems 97	Forecasting 144
Appendix—Behind the Demand	Preview 145
Curve: The Theory of Consumer	Sources of Data 145
Choice 101	Expert Opinion 145
Consumer Preferences 101	Surveys 146
Indifference Curves 102	Market Experiments 148
Budget Constraints 104	Time-Series Analysis 149
Utility Maximization 106	Trend Projection 150
Consumer Choice and the Demand Curve 107	Exponential Smoothing 158
Consumer Choice and Changes	Barometric Forecasting 161
in Demand 108	Leading Indicators 162

1 Diffusion	Economies of Scope 214
asite and to3	Factor Productivity 215
Compasite and Diffusion 163 165	Estimating the Production
160	Function 217
Composite 165 Indices 165 Indices 165 Input/Output Analysis 166 Input/Output Analysis 166 Input/Output Analysis 166 Input/Output Analysis 167 Input/Output Analysis 167 Input/Output Analysis 167 Input/Output Analysis 165 Input/Output Analysis 165 Indices Analysis 165 Indices 166 Indices Ind	6
par pant Requirements	
parect and Indirect Requirements  parect and Indirect Requirements  parect and Indirect Input/Output	Discussion Question. 222
Matrix with an Input/Output	Problems 222
Pareci and 168 Matrix Matrix Forecasting with an Input/Output Forecasting 168	
170	CHAPTER 7 Cost Theory
Summary Questions 171	and Analysis 230
Summary Questions 171 Discussion Questions 172	Preview 231
Discuss 172	The Economic Concept
Problems Pro	of Cost 231
rating Case Study	Opportunity Costs 231
Turkey	Explicit and Implicit Costs 232
II.	Normal Profit and Costs 233
ART III: PRODUCTION AND COSTS 181	Marginal, Incremental, and Sunk
ART III: AND COSTS	Costs 233
CHAPTER 6 Production Theory  Analysis 183	The Cost of Long-Lived
CHAPTER - 183	Assets 234
ano	Production and Cost 235
Preview 184	Short-Run Cost Functions 236
The Production Function 184	Long-Run Cost Functions 240
Production with One Production with One 188	Special Topics in Cost Theory 246
Variable Input	Profit Contribution Analysis 246
The Product Functions 188  Diminishing Marginal Returns 191	Operating Leverage 250
Relationships Among the Product	Estimating Cost Functions
r actions 191	Short-Run Cost Functions
Optimal Employment of a Factor	Long-Run Cost Functions
of Production 193	Summary 261
Production with Two	Discussion Questions 261
Variable Inputs 196	Problems 262
The Production Isoquant 197	ME " (25° WATA) -
The Production Isocost 199	CHAPTER 8 Linear
Optimal Employment of Iwo	Programming 269
Inputs 203	Preview 270
Profit Maximization	Linear Programming
Changes in Input I rices	Applications 270
The Expansion I am	The Linearity Assumption 271
Economies of Scale and Scope	THE BRIDE
Economies of Scale 212	

Constrained Profit Maximization 272  Structuring the Problem 272  The Feasible Region 275 Graphic Solution 276  Constrained Cost Minimization 282 Structuring the Problem 283 Sensitivity Analysis 286 Special Problems in Linear Programming 288 Multiple Solutions 289 Redundant Constraints 289 Redundant Constraints 289 No Feasible Solution 289 The Dual Problem 291 Summary 295 Discussion Questions 296 Problems 296 Integrating Case Study III: Bond Construction Company 303  PART IV: MARKET STRUCTURE 305 CHAPTER 9 Perfect Competition and Monopoly 307 Preview 308 Market Structure 308 Number and Size Distribution of Sellers 309 Product Differentiation 309 Conditions of Entry and Exit 309 Perfect Competition 310 Characteristics 310  In the Short Run 320 Evaluation of Perfect Competition 282 Monopoly 324 Characteristics 3125 Profit-Maximizing Price and Output in the Long Run 333 Summary 334 Summary 334 Discussion Questions 335 Problems 336  CHAPTER 10 Monopolistic Competition 341 Characteristics 341 Profit-Maximizing Price and Output in the Long Run 343 Evaluation of Monopolistic Competition 341 Characteristics 346 Price Regidity The Kinked Demand Model 351 Cartels and Collusion 354 Price Langership 357	The state of the s	Profit-Maximizing Output
Maximization 272 Structuring the Problem 275 Graphic Solution 276 Algebraic Solution 278 Constrained Cost Minimization 282 Structuring the Problem 283 Algebraic Solution 283 Sensitivity Analysis 286 Special Problems in Linear Programming 288 Multiple Solution 289 Redundant Constraints 289 No Feasible Solution 291 Structuring the Dual Problem 292 Solving the Dual Problem 292 Summary 295 Discussion Questions 296 Problems 296 Integrating Case Study III: Bond Construction Company 307 Preview 308 Market Structure 308 Market Structure 308 Number and Size Distribution of Buyers 309 Product Differentiation 309 Conditions of Entry and Exit 309 Perfect Competition 310 Characteristics 310  Losses and under in the Long Run 320 Profit-Maximizing Quuput in the Long Run 320 Evaluation of 310 Characteristics 312  Monopoly 324 Characteristics 325 Profit-Maximizing Price and Output in the Long Run 325 Integrating Case Study III: Bond Construction Company 303  CHAPTER 9 Perfect Competition and Monopoly 307 Preview 308 Market Structure 308 Number and Size Distribution of Buyers 309 Product Differentiation 309 Conditions of Entry and Exit 309 Perfect Competition 310 Characteristics 310  Losses and under in the Long Run 320 Evaluation of 321  Monopoly 324 Characteristics 325 Profit-Maximizing Price and Output in the Long Run 343 Evaluation of Monopolistic Competition 341 Characteristics 341 Profit-Maximizing Price and Output in the Long Run 343 Evaluation of Monopolistic Competition 344 Oligopoly 346 Characteristics 346 Price Rigidity: The Kinked Demand Model 348 Interdependence: The Cournot Model 351 Cartels and Collusion 354 Price Langership 357	Constrained Profit	in the Short Run 313
**Profile Maximizing Output in the Long Run 320 Algebraic Solution 276 Algebraic Solution 278  **Constrained Cost	State of the state	Losses and the Shutdown
in the Long Run 320 Graphic Solution 278 Constrained Cost Minimization 282 Structuring the Problem 282 Algebraic Solution 283 Sensitivity Analysis 286 Special Problems in Linear Programming 288 Multiple Solutions 289 Redundant Constraints 289 Redundant Constraints 289 No Peasible Solution 289 Summary 295 Discussion Questions 296 Problems 296 Integrating Case Study III: Bond Construction Company 307 Preview 308 Market Structure 308 Number and Size Distribution of Buyers 309 Product Differentiation 309 Conditions of Entry and Exit 309 Perfect Competition 310 Characteristics 310  in the Long Run 320 Competition 321 Monopoly 324 Characteristics 325 Profit Maximizing Price and Output in the Short Run 325 Monopoly 324 Characteristics 325 Profit Maximizing Price and Output in the Short Run 325 Allocative Inefficiency and Rent Seeking 330 Relevance of Perfect Competition and Monopoly 333 Summary 334 Discussion Questions 335 Problems 336  CHAPTER 10 Monopolistic Competition, Oligopoly, and Barriers to Entry 340 Preview 341 Monopolistic Competition 341 Characteristics 341 Profit Maximizing Price and Output in the Short Run 342 Profit Maximizing Price and Output in the Long Run 325 Monopoly 334 Characteristics 341 Profit Maximizing Price and Output in the Short Run 342 Profit Maximizing Price and Output in the Long Run 325 Competition 341 Characteristics 341 Profit Maximizing Price and Output in the Long Run 325 Competition 341 Characteristics 346 Price Rigidity: The Kinked Demand Model 348 Interdependence: The Cournot Model 351 Cartels and Collision 354 Profit Maximizing Price and Output in the Short Run 325 Profit Maximizing Price and Output in the Short Run 325 Redundant Construction Competition 340 Oligopoly 346 Characteristics 341 Profit Maximizing Price and Output in the Short Run 325 Relevance of Perfect Competition 341 Characteristics 341 Profit Maximizing Price and Output in the Short Run 325 Relevance of Perfect Competition 341 Characteristics 341 Profit Maximizing Price and Output in the Short Run 325 Relevance		
Constrained Cost  Minimization 282  Structuring the Problem Algebraic Solution 283  Sensitivity Analysis 286  Special Problems in Linear Programming 288  Multiple Solutions 289  Redundant Constraints 289  Rober Solution 289  The Dual Problem 291  Structuring the Dual Problem 292  Solving the Dual Problem 292  Solving the Dual Problem 292  Solving the Dual Problem 294  Summary 295  Discussion Questions - 296  Problems 296  Integrating Case Study III: Bond Construction Company 303  PART IV: MARKET STRUCTURE 305  PART IV: MARKET STRUCTURE 305  CHAPTER 9 Perfect Competition and Monopoly 307  Preview 308  Market Structure 308  Number and Size Distribution of Buyers 309  Product Differentiation 309  Conditions of Entry and Exit 309  Perfect Competition 310  Characteristics 310  Evaluation of Perfect Competition 321  Monopoly 324  Characteristics 325  Profit-Maximizing Price and Output in the Short Run 342  Profit-Maximizing Price and Output in the Short Run 342  Profit-Maximizing Price and Output in the Short Run 343  Evaluation of Monopolistic Competition 341  Characteristics 341  Profit-Maximizing Price and Output in the Long Run 325  Redistribution 328  Technical Intefficiency and Rent Seeking 330  Relevance of Perfect Competition and Monopoly 333  Summary 334  Discussion Questions 335  Problems 336  CHAPTER 10 Monopolistic Competition 341  Characteristics 341  Profit-Maximizing Price and Output in the Short Run 342  Profit-Maximizing Price and Output in the Long Run 343  Evaluation of Monopolistic Competition 344  Oligopoly 346  Characteristics 346  Price Rigidity: The Kinked Demand Model 348  Interdependence: The Cournot Model 349  Interdependence: The Cournot Model 357	. Wacter and the 17 obtem	in the Long Run 320
Constrained Cost  Minimization 282 Structuring the Problem Algebraic Solution 283 Sensitivity Analysis 286 Special Problems in Linear Programming 288 Multiple Solutions 289 Redundant Constraints 289 No Feasible Solution 289 Redundant Constraints 289 No Feasible Solution 289 The Dual Problem 291 Structuring the Dual Problem 292 Solving the Dual Problem 292 Solving the Dual Problem 292 Discussion Questions - 296 Problems 296 Integrating Case Study III: Bond Construction Company 303  PART IV: MARKET STRUCTURE 305  CHAPTER 9 Perfect Competition and Monopoly 307 Preview 308 Market Structure 308 Number and Size Distribution of Buyers 309 Product Differentiation 309 Conditions of Entry and Exit 309 Perfect Competition 310 Characteristics 310  Monopoly 324 Characteristics 325 Profit-Maximizing Price and Output in the Long Run 326 Allocative Inefficiency and Rent Seeking 330 Relevance of Perfect Competition and Monopoly 333 Summary 334 Discussion Questions 335 Problems 336  CHAPTER 10 Monopolistic Competition, Oligopoly, and Barriers to Entry 340 Preview 341 Monopolistic Competition 341 Characteristics 341 Profit-Maximizing Price and Output in the Short Run 342 Profit-Maximizing Price and Output in the Long Run 343 Evaluation of Monopolistic Competition 344 Oligopoly 346 Characteristics 346 Price Rigidity: The Kinked Demand Model 348 Interdependence: The Cournot Model 351 Cartels and Collusion 354 Profit-Maximizing Price and Output in the Long Run 343 Evaluation of Monopolistic Competition 340 Oligopoly 346 Characteristics 346 Price Rigidity: The Kinked Demand Model 348 Interdependence: The Cournot Model 351 Cartels and Collusion 354		Evaluation of Perfect
