vii

Preface

PART ONE INTRODUCTION TO MICROBIOLOGY

- | | | |
|-----------|--|----|
| Chapter 1 | The Scope of Microbiology | 3 |
| Chapter 2 | The History of Microbiology | 18 |
| Chapter 3 | The Characterization, Classification, and Identification of Microorganisms | 37 |
| Chapter 4 | The Microscopic Examination of Microorganisms | 50 |

PART TWO MICROORGANISMS—BACTERIA

- | | | |
|-----------|---|----|
| Chapter 5 | The Morphology and Fine Structure of Bacteria | 7 |
| Chapter 6 | The Cultivation of Bacteria | 9 |
| Chapter 7 | Reproduction and Growth | 11 |
| Chapter 8 | Pure Cultures and Cultural Characteristics | 11 |

PART THREE MICROBIAL PHYSIOLOGY AND GENETICS

- | | | |
|------------|--|--|
| Chapter 9 | Enzymes and Their Regulation | |
| Chapter 10 | Microbial Metabolism: Energy Production | |
| Chapter 11 | Microbial Metabolism: Utilization of Energy and Biosynthesis | |
| Chapter 12 | Bacterial Genetics | |

PART FOUR THE WORLD OF BACTERIA

- | | | |
|------------|---|--|
| Chapter 13 | The World of Bacteria I: "Ordinary" Gram-Negative Bacteria | |
| Chapter 14 | The World of Bacteria II: "Ordinary" Gram-Positive Bacteria | |
| Chapter 15 | The World of Bacteria III: Bacteria with Unusual Properties | |
| Chapter 16 | The World of Bacteria IV: Gram-Positive, Filamentous Bacteria of Complex Morphology | |

PART FIVE MICROORGANISMS—FUNGI, ALGAE, PROTOZOA, AND VIRUSES

- | | | |
|------------|------------------------|--|
| Chapter 17 | Fungi—Molds and Yeasts | |
| Chapter 18 | Algae | |

CONTENTS

- Chapter 19 Protozoa
- Chapter 20 Viruses of Bacteria
- Chapter 21 Viruses of Animals and Plants

PART SIX CONTROL OF MICROORGANISMS

- Chapter 22 Control of Microorganisms by Physical Agents
- Chapter 23 Control of Microorganisms by Chemical Agents
- Chapter 24 Antibiotics and Other Chemotherapeutic Agents

PART SEVEN ENVIRONMENTAL AND INDUSTRIAL MICROBIOLOGY

- Chapter 25 Microbiology of Soil
- Chapter 26 Aquatic Microbiology
- Chapter 27 Microbiology of Domestic Water and Wastewater
- Chapter 28 Microbiology of Foods
- Chapter 29 Industrial Microbiology

PART EIGHT MICROORGANISMS AND DISEASE

- Chapter 30 Microbial Flora of the Healthy Human Host
- Chapter 31 Host-Microbe Interactions: The Process of Infection
- Chapter 32 Natural Resistance and Nonspecific Defense Mechanisms
- Chapter 33 Basic and Theoretical Aspects of the Immune Response
- Chapter 34 Assays and Applications of the Immune Response
- Chapter 35 Epidemiology of Infectious Diseases
- Chapter 36 Microbial Agents of Disease: Bacteria
- Chapter 37 Microbial Agents of Disease: Viruses
- Chapter 38 Microbial Agents of Disease: Fungi and Protozoa
