

CHORDATE ZOOLOGY

& ANIMAL PHYSIOLOGY

E. L. JORDAN
P. S. VERMA

Contents

Chapter	Page
1. Introduction	1
Chordate characters 1 ; Ancestry of chordates 4 ; Principles of taxonomy 6 ; Classification of chordata 12.	
PROTOCHORDATES	
2. Hemichordata	17
<i>Balanoglossus</i> —Habit and habitat 17 ; External characters 18 ; Body-wall 21 ; Coelom 22 ; Skeleton 23 ; Digestive system 24 ; Respiratory system 26 ; Blood vascular system 28 ; Excretory system 30 ; Nervous system 30 ; Sense organs 30 ; Reproductive system 30 ; Development 31 ; Asexual reproduction 38 ; Regeneration 38 ; Affinities 38.	
3. Hemichordata	43
General characters 43 ; Classification 43 ; Representative types 45.	
4. Urochordata	48
<i>Herdmania</i> —Habit and habitat 49 ; External features 49 ; Test 51 ; Spicules 52 ; General anatomy 54 ; Mantle and atrium 57 ; Alimentary canal 58 ; Respiratory system 62 ; Circulatory system 62 ; Nervous system 67 ; Receptors 67 ; Excretory organ 68 ; Reproductive system 69 ; Development 70 ; Affinities 73.	
5. Urochordata	75
General characters 75 ; Classification 75 ; Representative types 77.	
6. Cephalochordata	88
<i>Amphioxus</i> —Habit and habitat 88 ; External features 89 ; Body-wall 92 ; Alimentary canal 93 ; Respiration 101 ; Coelom 103 ; Circulatory system 104 ; Excretory system 105 ; Nervous system 107 ; Sense organs 108 ; Reproductive system 109 ; Development 110 ; Affinities 123.	
VERTEBRATES	
7. Cyclostomata	129
<i>Petromyzon</i> —Systematic position 129 ; Habit and habitat 129 ; Distribution 130 ; External features 130 ; Body-wall 133 ; Muscular system 133 ; Skeleton 133 ; Digestive system	

Chapter

134 ; Respiratory system 135 ; Circulatory system 136 ; Nervous system 137 ; Sense organs 138 ; Excretory system 138 ; Reproductive system 138 ; Life history 138 ; Comparison between lampreys and hag-fishes 140 ; Summary of the characters of cyclostomes 142.

8. Agnatha

General characters 145 ; Classification 145 ; Representative types 146.

9. Pisces

Scoliodon—Systematic position 149 ; Habit and habitat 149 ; Distribution 150 ; External features 150 ; Skin 152 ; Exoskeleton 152 ; Endoskeleton 154 ; Musculature 165 ; Locomotion 166 ; Coelom and viscera 168 ; Digestive system 170 ; Respiratory system 174 ; Blood vascular system 178 ; Nervous system 187 ; Receptor organs 196 ; Urino genital organs 203 ; Copulation 208 ; Fertilization 208 ; Development 208.

10. Pisces

General characters 211 ; Classification 212 ; Representative types 218.

11. Amphibia

Rana (Frog)—Systematic position 234 ; Habit and habitat 234 ; External features 236 ; Skin 238 ; Endoskeleton 240 ; Digestive system 250 ; Nutrition 261 ; Respiratory system 268 ; Blood vascular system 273 ; Lymphatic system 283 ; Nervous system 290 ; Receptors 302 ; Urinogenital system 310.

12. Amphibia

General characters 317 ; Classification 317 ; Representative types 321.

13. Notes on Amphibia

Parental care in Amphibia 333.

14. Reptilia

Uromastix—Systematic position 341 ; Habit and habitat 341 ; External features 341 ; Skin 345 ; Exoskeleton 345 ; Endoskeleton 346 ; Digestive system 361 ; Respiratory system 366 ; Blood vascular system 369 ; Nervous system 381 ; Sense organs 385 ; Urinogenital system 389 ; Copulation and fertilization 392.

15. Reptilia

5. Notes on Reptilia

419

Poison apparatus and biting mechanism of poisonous snakes 419 ; Poisonous and non-poisonous snakes 422.

7. Aves

425

Columba (Pigeon)—Systematic position 426 ; Habit and habitat 426 ; Distribution 427 ; External features 427 ; Skin 430 ; Exoskeleton 431 ; Muscular system 443 ; Endoskeleton 448 ; Coelom 465 ; Digestive system 466 ; Respiratory system 472 ; Circulatory system 477 ; Nervous system 484 ; Sense organs 490 ; Endocrine glands 496 ; Urinogenital system 498 ; Copulation 499.

8. Aves

500

General characters 500 ; Classification 501 ; Representative types 509.

9. Notes on Aves

521

Flight or aerial adaptations of birds 521 ; Migration of birds 526 ; Economic importance of birds 535.

10. Mammalia

539

Rabbit—Systematic position 540 ; Habit and habitat 540 ; Distribution 541 ; Enemies 541 ; Economic importance 541 ; Important adaptations 541 ; Rabbit and Hare 541 ; External features 543 ; Locomotion 546 ; Integument 546 ; Skeleton 551 ; Coelom and viscera 578 ; Digestive system 574 ; Sound producing organs 592 ; Respiratory system 593 ; Blood vascular system 599 ; Nervous system 611 ; Sense organs 621 ; Urinogenital organs 631 ; Endocrine system 642.

11. Mammalia

649

General characters 649 ; Classification 650 ; Representative types 659.

COMPARATIVE ANATOMY

701

2. Integumentary System

Integument and its functions 701 ; Derivatives of the integument 706 ; Epidermal derivatives—Glands 705 ; Epidermal scales 708 ; Horns 710 ; Digital tips 712 ; Feathers 712 ; Hair 714 ; Dermal derivatives 717 ; Scales 717 ; Integument in Vertebrates 720 ; Fishes 720 ; Amphibians 723 ; Reptiles 724 ; Birds 724 ; Mammals 725.

728

3. Skeletal System

Skeleton 728 ; Bone 729 ; Axial Skeleton 732 ; Skull 732 ; Jaw 738 ; Jaw

Chapter

reptilian skull 741; Characteristic of avian skull 742; Characteristic of mammalian skull 743. Vertebral column 744; Ribs 749; Vertebral column of fishes 750; Vertebral column of tetrapoda 751; Sternum 754; Appendicular skeleton 756; Girdles and limbs of tetrapoda 757.

24. Coelom and Digestive System

Coelom 770; Digestive system 773; Buccal cavity 774; Salivary glands 775; Tongue 775; Teeth 776; Development of teeth 781; Pharynx 782; Oesophagus 782; Stomach 783; Small intestine 784; Large intestine 786; Liver 787; Pancreas 789; Digestion of food 790; Absorption 792.

25. Respiratory System

External gills 794; Internal gills 795; Lungs 796; Pharynx 797; Mechanism of respiration 797; Physiology of respiration 797; Accessory respiratory organs 799; Swim or air bladder 802.

26. Circulatory System

Blood vessels 808; Blood 809; Functions of blood 811; Heart 812; Heart in vertebrates 814; Arterial system 816; Embryonic arteries 816; Modification of aortic arches 817; Venous system 819; Embryonic veins 819; Modification of veins 820; Lymphatic system 822.

27. Nervous System

Nervous tissues 826; Functional divisions of nervous system 828; Development of central nervous system 829; Development of brain 830; Commissures 832; Nerve cord 832; Meninges 833; Central nervous system in vertebrates 834; Elasmobranchs 834; Bony fish 837; Amphibia 838; Reptilia 839; Aves 840; Mammal 841; Peripheral nervous system 845; Elasmobranchs 848; Amphibia 850; Autonomic nervous system 853; Elasmobranchs 857; Bony fishes 858; Amphibia 858.

28. Receptor Organs

Cutaneous receptors 860; Chemoreceptors 861; Eyes or photoreceptors 863; Development of eye 864; Eyes in vertebrates 867; Mammal 865; Elasmobranchs 870; Amphibia 872; Reptilia 873; Aves 873; Acoustico-lateralis system in vertebrates 874; Elasmobranchs 875; Ears or statoacoustic organs in vertebrates 876; Development of ear 877; Elasmobranchs 878; Amphibia 880; Reptilia 882; Aves 883; Mammalia 884; Internal receptors or interoceptors 887.

29. Endocrine System

Thyroid gland 890; Parathyroid glands 891; Adrenal glands 892; Pituitary gland 893; Pineal gland 894; Ovaries 895; Testes 896; Thyroid gland 890; Parathyroid glands 891; Adrenal glands 892; Pituitary gland 893; Pineal gland 894; Ovaries 895; Testes 896.

Chapter

Page

892 ; Pituitary gland 894 ; Thymus gland 896 ; Pineal gland 897 ; Pancreas 897 ; Gonads 898 ; Endocrines in vertebrates 900 ; Elasmobranchs 900 ; Amphibia 900 ; Reptilia 901 ; Aves 901.

30. Urinogenital System

902

Vertebrate kidney 902 ; Archinephros 903 ; Pronephros 904 ; Mesonephros 904 ; Metanephros 906 ; Urinary bladder 907 ; Gonads and their ducts 907 ; Testes and male ducts 908 ; Ovaries and female ducts 908 ; Urinogenital organs 912 ; Elasmobranchs 912 ; Amphibia 915 ; Reptilia 916 ; Aves 918 ; Mammalia 199.

31. Embryology

926

Eggs and spermatozoa 926 ; Fertilization 928 ; Cleavage 929 ; Organogeny 930 ; Development of frog 932 ; Development of chick 943 ; Extra-embryonic membranes of chick 952 ; Development of mammals 956 ; Extra-embryonic membranes of rabbit 959 ; Placentation in mammals 962.

32. Heredity and Genetics

971

Mendelism 972 ; Mechanism of heredity 982 ; Modern principles of heredity 987 ; Sex-linked inheritance 989 ; Linkage 990 ; Crossing over 991.

33. Organic Evolution

993

Evidence from comparative anatomy 994 ; Evidence from embryology 999 ; Evidence from physiology 1003 ; Evidence from palaeontology 1004 ; Geological time chart 1009 ; Evolution of horse 1011 ; Evidence from taxonomy 1017 ; Evidence from geographical distribution 1018 ; Lamarckian theory 1023 ; Darwin's theory of natural selection 1025 ; De Vries mutation theory 1031 ; Mutations 1032 ; Adaptations 1034.

ANIMAL PHYSIOLOGY**34. Elements of Cell Physiology**

1049

Physical activities of a cell 1049 ; Diffusion 1050 ; Plasma membrane 1051 ; Osmosis 1053 ; Active transport 1055 ; Pinocytosis 1055 ; Hydrogen-ion concentration 1056 ; Buffer systems 1057.

35. Chemical Composition of a Cell

1061

Proteins 1061 ; Carbohydrate 1066 ; Lipids 1068 ; Vitamins 1071 ; Minerals 1071 ; Water 1071.

36. Enzymes

1072

Naming of enzymes 1075 ; Classification of enzymes 1073 ; Chemical nature of enzymes 1074 ; Coenzyme and Cofactor 1075 ; Summary of enzymes 1078.

37. Cellular Metabolism and Production of Energy

Energy-rich compounds 1081 ; Cytochromes 1083 ; Biological oxidation 1084 ; Glycolysis 1084 ; Metabolism of fats 1088 ; Metabolism of proteins 1089.

38. Nutrition

Feeding 1091 ; Digestion 1092 ; Absorption of food in the alimentary tract 1096 ; Nutritional requirements 1098.

39. Physiology of Respiration

Respiratory organs 1104 ; Respiratory pigments 1108 ; Transport of CO_2 in blood 1110 ; Respiratory quotient 1111 ; Metabolic rates 1112 ; Anaerobiosis 1112.

40. Excretion and Osmoregulation

Decomposition of proteins 1114 ; Relationship between excretory products and environment 1116 ; Excretory organs and urine formation 1118 ; Osmoregulation 1119.

41. Physiology of Blood

Blood coagulation 1122 ; Blood volume 1124 ; Blood groups 1125 ; Physiology of blood vascular system 1127.

42. Physiology of Nerve and Muscle

Nerve physiology 1131 ; Conduction of nerve impulses 1132 ; Structure and physiology of muscles 1135 ; Physiology of muscle-fibre 1139.
