|---------------|----------------------------------------------------------------------------|------------|
| <b>Part 1</b> | <b>INTRODUCTION</b>                                                        | <b>1</b>   |
| Chapter 1     | Kingdom Myceteae: Introduction to the fungi and outline of the major taxa. | 3          |
| <b>Part 2</b> | <b>DIVISION GYMNOAMYCOTA</b>                                               | <b>45</b>  |
| Chapter 2     | SUBDIVISION ACASIOMYCOTINA                                                 | 47         |
|               | Class Acasiomycetes                                                        | 47         |
| Chapter 3     | SUBDIVISION PLASMODIOMYCOTINA                                              | 57         |
|               | Class Protosteliomycetes                                                   | 57         |
| Chapter 4     | Class Myxomycetes                                                          | 61         |
| <b>Part 3</b> | <b>DIVISION MASTIGOMYCOTA</b>                                              | <b>99</b>  |
| Chapter 5     | SUBDIVISION HAPLOMASTIGOMYCOTINA                                           | 101        |
|               | Class Chytridiomycetes                                                     | 101        |
| Chapter 6     | Class Hyphochytridiomycetes                                                | 135        |
| Chapter 7     | Class Plasmodiophoromycetes                                                | 138        |
| Chapter 8     | SUBDIVISION DIPLOMASTIGOMYCOTINA                                           | 145        |
|               | Class Oomycetes                                                            | 145        |
| <b>Part 4</b> | <b>DIVISION AMASTIGOMYCOTA</b>                                             | <b>189</b> |
| Chapter 9     | SUBDIVISION ZYGOMYCOTINA                                                   | 191        |
|               | Class Zygomycetes                                                          | 191        |
| Chapter 10    | Class Trichomycetes                                                        | 229        |
| Chapter 11    | SUBDIVISION ASCOMYCOTINA                                                   | 235        |
|               | Class Ascomycetes                                                          | 235        |
| Chapter 12    | Subclass Hemiascomycetidae                                                 | 259        |
| Chapter 13    | Subclass Plectomycetidae                                                   | 282        |
| Chapter 14    | Subclass Hymenoascomycetidae I                                             | 308        |
|               | Pyrenomycetes I                                                            | 308        |
|               | The Phylactinia type centrum                                               | 308        |

|                      |                                                      |     |
|----------------------|------------------------------------------------------|-----|
| Chapter 15           | Subclass Hymenoascomycetidae II                      | 322 |
|                      | Pyrenomyces II                                       | 322 |
|                      | The <i>Xylaria</i> type centrum                      | 322 |
| Chapter 16           | Subclass Hymenoascomycetidae III                     | 349 |
|                      | Pyrenomyces III                                      | 349 |
|                      | The <i>Diaporthe</i> and <i>Nectria</i> type centra  | 349 |
| Chapter 17           | Discomycetes                                         | 359 |
| Chapter 18           | Subclass Laboulbeniomycetidae                        | 388 |
| Chapter 19           | Subclass Loculoascomycetidae                         | 393 |
| Chapter 20           | SUBDIVISION BASIDIOMYCOTINA                          | 414 |
|                      | Class Basidiomycetes                                 | 414 |
| Chapter 21           | Subclass Holobasidiomycetidae I                      | 429 |
|                      | Hymenomyces I                                        | 429 |
|                      | Order Aphyllophorales                                | 429 |
| Chapter 22           | Subclass Holobasidiomycetidae II                     | 446 |
|                      | Hymenomyces II                                       | 446 |
|                      | Order Agaricales                                     | 446 |
| Chapter 23           | Subclass Holobasidiomycetidae III                    | 470 |
|                      | Hymenomyces III                                      | 470 |
|                      | Orders Exobasidiales, Dacrymycetales, Tulasnellales, |     |
|                      | Brachybasidiales                                     | 470 |
| Chapter 24           | Subclass Holobasidiomycetidae IV                     | 477 |
|                      | Gasteromycetes                                       | 477 |
| Chapter 25           | Subclass Phragmobasidiomycetidae                     | 491 |
| Chapter 26           | Subclass Teliomycetidae                              | 499 |
| Chapter 27           | SUBDIVISION DEUTEROMYCOTINA                          | 534 |
|                      | Form-Class Deuteromycetes                            | 534 |
|                      | Form-Subclass Blastomycetidae                        | 554 |
|                      | Form-Subclass Coelomycetidae                         | 557 |
|                      | Form-Subclass Hyphomycetidae                         | 561 |
| <b>Part 5</b>        | <b>THE LICHENS</b>                                   | 573 |
| Chapter 28           | Lichenes                                             | 575 |
| <b>Glossary</b>      |                                                      | 589 |
| <b>Author Index</b>  |                                                      | 603 |
| <b>Subject Index</b> |                                                      | 611 |
