BOTANY

Paper B

*For B.Sc. (Two Years) Paper B
For B.S. (Four Years) 2nd Semester*

**Plant Systematics, Anatomy
& Development**

**Prof. Iftikhar Ahmad Khan
Prof. Riaz-ul-Haq Ramay**

Plant Taxonomy (Systematics)

No.	Chapter	Page
1.	Introduction to Plant Systematics	8
2.	Classification	12
3.	Nomenclature	28
4.	Morphology and Phytography: Morphological characters of root, stem, leaves, inflorescence, flower, placentation, and fruit types	35
5.	Angiospermic Families: 1. Ranunculaceae 2. Brassicaceae (Cruciferae) 3. Fabaceae (Leguminosae): 4. Rosaceae 5. Euphorbiaceae 6. Rutaceae 7. Moraceae 8. Chenopodiaceae 9. Cucurbitaceae 10. Solanaceae 11. Lamiaceae (Labiatae) 12. Asteraceae (Compositae) 13. Liliaceae 14. Poaceae (Gramineae)	126

Plant Anatomy and Development

No.	Chapter	Page
1.	Cell wall	186
2.	Tissues and tissue system	201
3.	Structure of plant parts Root, stem, leaves and meristem, Secondary growth Characteristics of wood (for B.S.)	226
4.	Embryology (Early development) Capsella bursa-pastoris, Structure and development Parthenocarpy Polyembryony	269
5.	Appendix Family Apiaceae (Umbelliferae) for B.S. Takhtajan Classification System for B.S.	297 300
