

Genetic Analysis

William K. Baker

RSIDE STUDIES IN BIOLOGY

Class No. 575

Author No. Baba

Acc. No. 1207

Good Library 1973

■ Contents

Editors' Introduction	v
Preface	vii
Foreword to the Student	x
1 GENETIC ANALYSIS INTRODUCED	1
Analyzing the Black Box · A Classical Example · A Neo-Classical Example—the Genophore Concept · A Contemporary Example · Subdividing Genetic Material · Operations and Theories	
2 GENETIC LANGUAGE, SYMBOLS, AND RATIOS	15
Genetic Terminology · Symbolization · The Genophore, Once Again · Ratios from Random Recombination · Modified Ratios	
3 THE GENETIC UNITS OF RECOMBINATION	23
Genetic Mapping — <i>Drosophila</i> · Genetic Fine Structure — <i>Drosophila</i> · Genetic Fine Structure — Bacteriophage	
4 THE GENETIC UNITS OF FUNCTION	43
Defining the Cistron · Mapping Cistrons · Cistrons in Bacteriophage	
5 THE GENETIC UNITS OF MUTATION	52
Defining the Muton · Measuring the Muton	
6 PHYSICAL COUNTERPARTS OF THE GENOPHORE	58
Chromosomes and Genophores · Nucleic Acids and Genophores · Sexuality in Bacteria and Genophore Concept · Bacterial Transduction and Genophores	
7 GENETIC ANALYSIS OF MEIOSIS OF NORMAL CHROMOSOMES	74
Genetic Implications of Meiosis · Tetrad Analysis When Single Products Are Recovered · Tetrad Analysis When Two Products are Recovered · Tetrad Analysis When All Four Products Are Recovered	
8 GENETIC ANALYSIS OF ABERRANT CHROMOSOMES	96
Inversions · Ring Chromosomes and Circular Genetic Maps · Translocations · Duplications and Deficiencies · Monosomy and Polysomy · The Usefulness of Chromosomal Aberrations in Experimentation	

9 GENETIC ANALYSIS APPLIED TO THE GENETIC CODE PROBLEM	
Protein and Genetic Collinearity · Measuring and Reading Codons	125

10 GENETIC ANALYSIS APPLIED TO ASPECTS OF CELLULAR DIFFERENTIATION	
Position-Effect Variegation — A Model System · Tracing Cell Lineages · Control of Cellular Function · Mechanism of Protein Synthesis · Control of Protein Synthesis · Maintenance of Control Systems	134

APPENDIX	
The Life Cycle of <i>Drosophila melanogaster</i> · The Life Cycle of <i>Neurospora</i> <i>crassa</i> · The Sexual Cycle of <i>Escherichia coli</i> · The Life Cycle of <i>Zea mays</i>	152
