Work Out Biology GCSE

£4.99

O. F. G. Kilgour

Acknowledgements	viii
Organisations Responsible for GCSE Examinations	ix
Introduction	xi
How to use this book	xi
Revision	xi
The GCSE Examination	xii
1 Basic Bioscience	1
1.1 Theoretical Work Summary	1
1.2 Practical Work	7
1.3 Examination Work	10
1.4 Self-test answers to objective and structured questions	16
THEME I DIVERSITY OF LIVING ORGANISMS	19
2 Living Organisms	21
2.1 Theoretical Work Summary	21
2.2 Practical Work	36
2.3 Examination Work	37
2.4 Self-test answers to objective and structured questions	45
THEME II STRUCTURE AND FUNCTIONING OF LIVING ORGANISMS	47
3 Cells, Tissues, Organs and Organisation	49
3.1 Theoretical Work Summary	49
3.2 Practical Work	54
3.3 Examination Work	55
3.4 Self-test answers to objective and structured questions	62
4 Plant Nutrition	63
4.1 Theoretical Work Summary	63
4.2 Practical Work	68
4.3 Examination Work	71
4.4 Self-test answers to objective and structured questions	78
5 Animal Nutrition	79
5.1 Theoretical Work Summary	79
5.2 Practical Work	89
5.3 Examination Work	90
5.4 Self-test answers to objective and structured questions	96
6 Transport	97
6.1 Theoretical Work Summary	97
6.2 Practical Work	104
6.3 Examination Work	108
6.4 Self-test answers to objective and structured questions	115

7	Respiration	7.1 Theoretical Work Summary	13
		7.2 Practical Work	14
		7.3 Examination Work	15
		7.4 Self-test answers to objective and structured questions	16
8	Growth	8.1 Theoretical Work Summary	16
		8.2 Practical Work	16
		8.3 Examination Work	16
		8.4 Self-test answers to objective and structured questions	17
9	Homeostasis	9.1 Theoretical Work Summary	16
		9.2 Practical Work	17
		9.3 Examination Work	16
		9.4 Self-test answers to objective and structured questions	16
10	Irritability	10.1 Theoretical Work Summary	17
		10.2 Practical Work	17
		10.3 Examination Work	17
		10.4 Self-test answers to objective and structured questions	17
11	Support and Movement	11.1 Theoretical Work Summary	18
		11.2 Practical Work	18
		11.3 Examination Work	19
		11.4 Self-test answers to objective and structured questions	19
THEME III DEVELOPMENT OF ORGANISMS AND CONTINUITY OF LIFE			
12	Reproduction	12.1 Theoretical Work Summary	20
		12.2 Practical Work	20
		12.3 Examination Work	21
		12.4 Self-test answers to objective and structured questions	21
13	Genetics and Evolution	13.1 Theoretical Work Summary	22
		13.2 Practical Work	22
		13.3 Examination Work	23
		13.4 Self-test answers to objective and structured questions	24
THEME IV RELATIONSHIPS BETWEEN ORGANISMS AND WITH THE ENVIRONMENT			
14	The Ecosystem	14.1 Theoretical Work Summary	24
		14.2 Practical Work	24
		14.3 Examination Work	25
		14.4 Self-test answers to objective and structured questions	26
15	Basic Experimental Skills	15.1 Introduction	26
		15.2 General Laboratory Techniques	26
		15.3 Physical Measurement Techniques	27
		15.4 Chemical Techniques	27
		15.5 Biological Techniques	27
		15.6 Written Work	28

16 Complete Course Self-test	291
16.1 Bioscience	291
16.2 Variety of Organisms	292
16.3 Cells, Tissues, Organs and Organisation	293
16.4 Plant Nutrition	294
16.5 Animal Nutrition	296
16.6 Transport	297
16.7 Respiration	298
16.8 Growth	299
16.9 Homeostasis	301
16.10 Irritability	302
16.11 Support and Movement	303
16.12 Reproduction	305
16.13 Genetics and Evolution	306
16.14 Organisms and the Environment	307
 Book List	 315
General	315
Diversity of Living Organisms	315
Structure and Function of Living Organisms	315
Development of Organisms and Continuity of Life	316
Relationships between Organisms and the Environment	316
 Information and Resources	 317
Biological Materials and Apparatus	317
Information and Literature	317
 Index	 319
