# Contents

---

Preface 1

## Part 1 The position of humans in the animal kingdom

- 1 Humans and other animals 2

## Part 2 Cells and metabolism

- 2 Cells: the units of life 4
- 3 Cell structure 6
- 4 Metabolism and enzymes 8
- 5 Respiration 10
- 6 Adenosine triphosphate (A.T.P.) 12

## Part 3 Tissues, organs, and organ systems

- 7 Epithelial tissues 14
- 8 Muscle tissues 16
- 9 Nervous tissues and nerve impulses 18
- 10 Connective tissues 20
- 11 Organs and organ systems 22

## Part 4 The skeleton, muscles, and movement

- 12 The skeleton and its functions 24
- 13 Structure and growth of bones 26
- 14 Joints 28
- 15 Muscles, movement, and leverage 30
- 16 Sprains, dislocations, and fractures 32
- 17 Posture 34
- 18 Exercise, fatigue, and rest 36

## Part 5 Nutrition

- 19 Photosynthesis and food chains 38
- 20 Types of food and their energy value 40
- 21 Vitamins and minerals 42
- 22 Diet 44
- 23 Food preservation 46
- 24 Digestion, absorption, and assimilation 48
- 25 Teeth 50
- 26 Digestion 52
- 27 Absorption 54
- 28 The liver 56

## Part 6 The circulatory system

- 29 Blood and its functions 58
- 30 Structure of the heart 60
- 31 How the heart pumps blood 62
- 32 Arteries, capillaries, and veins 64
- 33 The main blood vessels 66
- 34 Tissue fluid and lymph 68
- 35 Blood groups and blood transfusions 70
- 36 Blood clotting, and treatment of bleeding and wounds 72

## Part 7 The respiratory system

- 37 Structure of the respiratory system 74
- 38 Breathing movements 76
- 39 Lung volume, breathing rate, and artificial respiration 78
- 40 Gaseous exchange 80

## Part 8 Homeostasis

- 41 Homeostasis, excretion, and the urinary system 82
- 42 Excretion by the kidneys 84
- 43 Skin and temperature control 86
- 44 Structure and care of skin and hair 88

## Part 9 Sense organs

- 45 Senses in the skin, tongue, and nose 90
- 46 Structure of the eye 92
- 47 Focusing and structure of the retina 94
- 48 Binocular vision and eye defects 96
- 49 The ear and hearing 98
- 50 Sense of balance 100

## Part 10 The nervous system

- 51 Parts of the nervous system 102
- 52 Reflexes 104
- 53 The autonomic nervous system 106
- 54 The endocrine system 108

## Part 11 Reproduction

- 55 Male reproductive system 110
- 56 Female reproductive system 112
- 57 The menstrual cycle 114
- 58 Fertilization and implantation 116
- 59 Pregnancy and the placenta 118
- 60 Development before birth 120
- 61 Birth 122
- 62 The newborn baby 124
- 63 Development of co-ordination 126
- 64 Growth, development, and ageing 128
- 65 Birth control 130

## Part 12 Heredity

- 66 Variation, heredity, and genetics 132
- 67 Chromosomes, genes, and mitosis 134
- 68 Gametes, meiosis, and sex chromosomes 136
- 69 Heredity and genes 138
- 70 Some technical terms used in genetics 140
- 71 DNA and the genetic code 142
- 72 Transcribing the genetic code 144

## Part 13 The causes and prevention of disease

- 73 Some causes of disease 146
- 74 Some microbes which cause disease 148

- 75 Parasitic roundworms (nematodes) 150
- 76 Tapeworms 152
- 77 Fleas, lice, and bed bugs 154
- 78 Houseflies and disease 156
- 79 The spread of infection 158
- 80 Prevention of infection 160
- 81 Pure water supplies 162
- 82 Disposal of sewage and refuse 164
- 83 Safety in and around the home 166
- 84 Ventilation, heating, and lighting 168
- 85 Pollution 170
- 86 Smoking 172
- 87 Drinking and drug taking 174
- 88 The National Health Service 176
- 89 Antiseptic surgery and medical drugs 178

## Part 14 Immunity

- 90 Natural immunity 180
- 91 Acquired immunity and immunization 182

Revision tests 184

Glossary 199

Index 208
